

HUGO B. KOCH AS BISHOP OF BENARES

—Mr. Hugo B. Koch, who appears as the bishop of Benares in "The Servant in the House" is what may be called an ardent student of dramatic art. But while Mr. Koch has for a number of years been playing leading roles in some of the foremost productions, and making warm friends everywhere, yet in spite of his love for the drama, he has inspirations other than the stage. The pulpit has always appealed to him as the highest and most gratifying walk of life, and at the end of last season he had promised himself that he would begin his studies preparatory to entering the ministry.

Mr. Koch is a graduate of Yale and will enter a Theological college at the end of this season and prepare himself for his future vocation. "The Servant in the House" will be presented at Daly's Theatre Sunday evening, Sept. 24.

Joe Tracy has resigned his position as operator at the St. Paul depot.

Laying Water Mains.

The city has a gang of men at work on the cross streets of the city putting in extensions to the water mains so that after the paving is done it will not have to be torn up again. Many of the cross streets on the west side now have 2 inch water mains on them, and it is the intention to put in eight inch mains as far as the paving will reach. It will be necessary to shut off the water on several occasions while the new connections are being put in, but the people will be given notice when this is to be done.

Goods Are Stolen.

Some person or persons broke into the partition recently and stole everything they could get their hands on. The missing goods consisted mostly of a lot of cigars belonging to Clets & Wendell, and some other things that were kept there for sale when anything was going on.

OLD BUFFALO SKULL FOUND ON ADAMS FARM

Marshall News.—R. W. Adams, of the town of Hills has made several interesting finds while plowing on his farm, and the latest and probably most important of them is a collection of buffalo bones. The largest single piece is a portion of the skull and two horns, which indicate that the animal to which they belonged was of great size, as the horns are more than four inches through where they join the skull.

Mr. Adams has quite a collection of bones, to which the buffalo skulls were a valuable acquisition. It is a good many years since the buffalo roamed the western plains in thousands, and it must be much longer since the animals were driven out or exterminated in Wisconsin, a matter of sixty or seventy years.

The muddy soil of the town of Hills has yielded a number of relics of old Indian times, such as arrow-heads, stone axes, copper and earthen kettles, etc.

With the Good Templars.

(Continued)

At the weekly meeting of Grand Rapids Lodge No. 5, I. O. G. T., Monday night a large representation was present, members being present from Vesper, Sigel, Seneca, and the town of Grand Rapids. Mr. R. S. McNaughton of Kaukauna, Wisconsin, was an interested visitor.

The Secretary read two propositions for membership to be introduced at the next meeting. Reports were made in regard to the "German Auction" to be held for the benefit of the lodge, Sept. 25. A select musical and literary program under the direction of Mr. Roland R. Baldwin is being arranged for this occasion. Admission will be free.

It was announced that Hub District Lodge No. 21, comprising the Good Templars of Marshfield, Abbotsford, Stratford, Loyal and Neesham would probably meet in the city of Grand Rapids early in October as the guests of Grand Rapids Lodge No. 5.

At the close of the regular order of business an elaborate Good of the Order program was rendered under the direction of Miss Lalla Jero, Past Lieutenant Company "A" side of the Good of the Order contest. A feature of this program, which was lengthy and entertaining and consisted of solos, duets and sextettes, readings, recitations and tableaux, was the Tableau "Rock of Ages" beautifully portrayed by Miss Olive Fennel and the singing and piano playing by Mr. Hugo Lund and Miss Eva Lind.

At the recent annual session of the Wisconsin Grand Lodge held at Wausau Chain of Lakes, Grand Rapids reported as the largest lodge in the state, having held this post of honor for nearly a year past.

Notwithstanding the heavy handicap of the hot summer months and the lethargy generally prevailing during certain parts of the year in all organizations Grand Rapids lodge has not regularly with more than 75 per cent of its membership present.

Monday night, October 2nd, a special effort will be made to have every member of the lodge present or accounted for, as all present that night will be aligned on one of the two sides for the contest which is now on with a vengeance. Members not present that night will be barred from participating in the contest as per a vote of the lodge.

A Servant in the House.

—One of the most striking figures seen on the English stage in recent years is the Drain-Man, the elemental and primitive being in "The Servant in the House," the sensational success play by Charles Rann Kennedy, which is to be presented at Daly's Theatre on Sunday, Sept. 24th by Hugo B. Koch and one of the most perfectly balanced acting organizations now extant in this country.

The Drain-Man is an out-cast, who has been cast off by his brother, an English clergyman, and who sinks lower and lower in the social scale until he becomes a scavenger. He is a victim of ingratitude of the world, a creature who has been kicked and buffeted about so much that there has grown in his heart a fierce hatred of the world and those who people it. He is almost a giant in stature, a great hulking, shaggy man with eyes that blaze with bitter resentment and a voice that sounds like the roar of some mighty animal.

He enters the house of his brother with black passion in his heart, intent upon finding his little girl whom the same brother has kept from him. Before he sees his brother he meets with Manson, the mysterious servant, who is also his own blood brother, but who is keeping his identity secret that he may influence for good those in the house who are in need of help.

The mysterious servant, transforms the Drain-Man into a useful member of society and implants in his heart the spark of brotherly love. He teaches him the glory of labor and shows him that the cleansing up of drains is a necessary occupation. In the end the Drain-Man finds genuine pride in his task and glories in the thought of his usefulness.

FATAL ACCIDENT NEAR JUNCTION CITY.

Stevens Point Journal.—Frances Luty, aged ten years, died at the home of her parents, Mr. and Mrs. Martin Luty, about a mile west of Junction City, at 10 o'clock Monday morning, as the result of an automobile accident.

At about 10 o'clock Sunday forenoon a party of little girls were on their way to church, coming east toward the Junction. At the same time a freight train loaded with cattle was passing over the Soo line and the attention of the girls was attracted to it. At the same time an automobile owned and driven by Matt Kruger of Stanley was going west, the two occupants of the car being on their way home from the state fair. When the girls came up over a hill and started down a decline in the road, their attention still attracted to the railroad train, the auto was going in the opposite direction and was close to them. The driver says he tooted his horn and then called to the children, but apparently they did not hear him. The fat girl was struck by the car, but it is not known whether she was injured by one of the front wheels or by the fender. The auto was stopped and the girl picked up and taken to the office of Dr. S. S. Leith at Junction City.

Upon examination it was found that there were no serious bruises or marks on her body and little indication of a severe shock. She was taken home and Dr. Leith visited her about two and a half hours later. At that time indications of internal injuries had become more pronounced, and she died at 10 o'clock Monday forenoon. Dr. Leith and Dr. Skewer of Milladore held a postmortem today. They found that the little girl had suffered a rupture of the stomach and also of the large intestines. There were also internal bruises.

After the little girl had been taken to her home Mr. Kruger proceeded on his way to Stanley, but left his name and the number of his machine.

Good Advice to Boys.

Boys, no doubt are offered a lot of advice, all of which is probably good, but most of which is not heeded. The following, however, taken from the "Republican and Prom" of Neillville, Wis., should not be passed lightly over by our boy readers for it is full of meaning and truth:

"If a boy is eager to enter a world that will exercise all his talents, let him go into general farming. In its business transactions he will meet with men who will call into play all the knowledge of human nature that any other business requires. In actual operations on the farm he will come in contact with the forces of nature in such a way as to give full exercise to every mental and physical power of his being. The solution of the questions of the soils, of seeds, of tillage, of crop rotation, of weed destruction, of feeding and breeding domestic animals, the operation of farm machinery, the planning and erection of farm buildings, are a few of the things upon which he may exercise his talents. Indeed so many and complex are the problems of modern farm life, that no man need hope to become an expert in all his branches; but if it is to be a career that he is looking for, any fair sized Wisconsin farm will furnish it."

There is also much greater opportunity for a boy to gain renown, honor, etc., from the farm than from the city. He may more easily become a leader, conspicuous, because of merit, because of character, honor, truthfulness, and because he thinks and acts to a purpose. He will be called upon to lead in the affairs of his town, county and state, in the halls of legislation in his state and at the capital of his country.

The farm is where strong, rugged character and manhood are built. Stay there boys and make something of the opportunities offered. Don't be satisfied with the fact that you can do a big day's work, but remember that fortunes are not made by hard manual day's work. No man ever got very rich working hard with his hands. Brave, and active, thinking mind, able to lay out work for men to do with their hands, is what is needed to bring wealth. Good planning, good executive ability which readily comes to the man who reads and studies, and who trains his mind, are essential in gaining prominence and wealth.

Alex Jones, who has been employed in the east for a couple of years past, arrived in the city on Monday to visit his parents, Mr. and Mrs. W. T. Jones, for a few days. Alex will attend the University of Wisconsin during the coming year, and leaves in a few days for Madison to take up his studies.

E. L. Hayward, proprietor of the Grand Rapids Business College, received two new Remington visible typewriters last week which were added to the equipment of his school. He reports that the number of students this year was greater than ever before, which would indicate that the school is giving satisfaction.

Laird Warner, who gained quite a reputation as a wrestler at the University the past year, had a friendly bout with Earl Carter, buttermaker at Chambers Creamery at the Elk club rooms on Tuesday afternoon, which was witnessed by a few invited friends. Carter won the fall in six minutes of hard wrestling. Laird put up a fine showing against Carter, who outweighed him about thirty pounds. Several more bouts will be pulled off this week by Laird Warner with Anthony Loose, Don Johnson and Arpin.

War in Grand Rapids.

—War has been declared by the local Cigar Manufacturers. Not a bloody war, where shot and shell fly thick but a good honest fight against all outside made cigars, cigars that are not made in our city.

Our army consists of four soldiers who reside here and purchase all goods that are obtainable right at home. These four soldiers are tax payers and are helping to increase the population and business of our city. When purchasing an outside cigar you do not know under what conditions they are manufactured. Many are made by Chinamen in San Francisco, and other coast towns, and the chinamen WORKS UNDER THE MOST UNSANITARY CONDITIONS.

Tens of thousands are made in New York tenement houses where the head of the family goes to some large manufacturing concern, and is given so many pounds of tobacco, out of which he must make so many cigars. He takes it home and the whole family gets busy making cigars in their two living rooms. Such conditions are not found in our Grand Rapids factories. Everything is kept clean and cigars are made under the best possible sanitary conditions, so when you buy a cigar that is made at home you are guaranteed a good clean smoke.

Now Mr. Smoker we want you to join our army and help us win our fight against outside goods and at the same time help boost for a bigger and better Grand Rapids, for we are all "Out to Win," and we will win.

Refreshments will be served by the North Side Division with Mrs. Guy Nash, Chairman and Mrs. Benjamin Vice Chairman.

Prefers Home to Convent.

Pond du Lac, Sept. 15.—Love at first sight has proved more compelling than a carefully considered determination to enter a convent, hence Miss Ruth Waller will shortly become the bride of District Attorney George Bliss Nelson of Stevens Point, instead of assuming the vows of the Sisterhood of the Holy Nativity. The engagement has been announced by her parents, Bishop Conductor and Mrs. R. H. Weller of this city. Miss Waller is an attractive and popular girl, graduating with honors from Crawford hall and Wellesley. She had arranged to enter the local convent of the sisterhood soon. Some time ago she attended a Stevens Point wedding and met Mr. Nelson. It was a case of love at sight with both. Hence the change in plans.

A Sad Accident.

Lenora, the little eight year old daughter of Mr. and Mrs. George Wolf, who live near Junction City, had her right hand badly lacerated and several fingers crushed on Saturday evening in a corn shredder. The little girl had stepped on the platform to watch her father who was feeding corn into the machine, when the wind blew her dress into the chains of the machine, and in trying to pull out her dress her hand was caught. Dr. Loewe was at once called to dress the wounds and since the accident the mother and the little girl have been staying at the Commercial Hotel. It is the intention of the attending physician to try and save the little one's hand.

Martin Bever of Houston, Texas, arrived in the city this morning to spend a couple of weeks visiting with friends and relatives.

Weather Observer Raymond reports that 1.79 inches of rain fell here during the storm of Sunday night. South of here a larger amount fell.

W. C. Wolsel has the alterations to the front of his store completed and it now presents a much improved appearance. He now has some show windows that are as nice as any in the city.

H. F. Anderson, the wagonmaker, sold his 240 acre farm near City Point in Jackson County to H. P. Krenz of Fond du Lac. The deal was made through the Grand Rapids Real Estate Company.

Frank Sidorsky of the town of Grant was arrested on Monday afternoon for being drunk and disorderly. Upon being taken before Justice Houshville he pled guilty to the charge against him and paid a fine and costs amounting to \$5.70.

PROSPECTS BRIGHT FOR AUTO FACTORY.

It looks at the present time as if the Cross Motor company might locate its factory in Grand Rapids. The matter has been gone over by most of our citizens and as a general thing they have not only expressed themselves as well satisfied with the prospects but have subscribed for some of the stock, which is more to the point.

W. A. Greene met with our business men last Wednesday afternoon and explained to them what the new company proposed to do and what they wanted in order to locate here. His demands seem to be most reasonable, and there was apparently no effort on the part of the promoters to get the best of the people here in any way. After the matter had been discussed in open meeting the matter of how much in the way of subscription for stock was looked into, and those present pledged themselves in a sum of about eighteen thousand dollars.

This was not as large an amount as Mr. Greene had hoped to raise at that time, but Mr. Darga started out the next day and had no trouble in securing enough so that Mr. Greene was satisfied that the people here were in earnest and he consented to send for his model car. This was done, and word came twelve days from him to the effect that he will be here with the car on Thursday morning.

At this writing the people of this city have subscribed for about fifty thousand dollars of the stock, and not all of our people have been approached on the subject. Also a number of those who have subscribed have made the statement that they would take more of the stock provided it was necessary for them to do so in order to get the factory located here.

As the matter now stands it looks very much as if there would be no trouble in handling the proposition. Several of our citizens have also signed their willingness to donate sites for the location of the factory, so that it is not expected that there will be any trouble along this line.

A Fine Hunting Lodge.

The Caray Concrete Company today shipped a carload of concrete blocks and brick to Vilas County which will be used in the construction of a model hunting shanty for the "Sash Bench." The building formerly occupied by them was burned this summer and they have leased a piece of land from the state for a period of twenty years and will build their new shanty near White Sand Creek. The new building will be 2430, with eight foot walls, hip roof, concrete floor, three places, lighted with a Ford Proof Gas Lighting System, and be absolutely fire proof. The work will be done by the Mosher Bros. and W. H. Carey and Fred Mosher expect to leave for there on Friday to get things started.

Noltner-Alexander.

Miss Ella Noltner and Russell Alexander were married on Tuesday morning, Sept. 19th, at the Catholic parish, Rev. Wm. Helling officiating.

They were attended by Miss Loretta Noltner of this city and John Alexander of Milwaukee. After the ceremony the wedding party repaired to the home of the bride's parents, Mr. and Mrs. W. F. Noltner, where a sumptuous wedding dinner was served.

The happy couple left the same day for Chicago on their wedding tour and upon their return will make their home in this city.

Get a Big Contract.

John Mosher returned on Sunday from Cornell, where he had been for several days closing up a deal with the new paper mill company to build from twenty-five to thirty new houses for them this fall. Mosher Bros. will leave for there with a crew of men to commence operations just as soon as they complete their job of remodeling the Hockinson building on Grand Ave.

Tigers Beaten.

An aggregation of ball players from Rudolph, known as the Tigers, were defeated in a one sided game at the ball park on Sunday afternoon by the Consolidated paper makers team by a score of 17 to 3. Battery for Rudolph was Roberts and Roberts and for the papermakers Palmer and Hofstetter. There was a small attendance.

Cole's Hot Blast Heater is Guaranteed to be a Money Saver.

—It is guaranteed to save a third in fuel over any lower draft stove of the same size, and we have a letter from the Cole Manufacturing Co. to this effect. Besides this, Cole's Hot Blast burner any kind of fuel, soft coal, lignite, hard coal, crushed coke, wood or cobs. Don't wait until the season is well on and the cold weather is here before investigating the merits of this remarkable heater. We have them on hand and will be glad to show them to you. The price runs from \$12.00 up.

Christian Science Lecture.

The Christian Science Society of this city announce a Christian Science lecture on Thursday evening, September 21st, at Daly's Theatre at 8 o'clock p. m. Judge Clifford P. Smith will be the speaker for the evening. Mr. Smith is a member of the board of Leadership of the First Church of Christ, Scientist, of Boston, Mass.

Died of Diphtheria.

Carl Lock, the son of Mr. and Mrs. Herman Lock, died on Tuesday from diphtheria. Deceased was 9 years, 6 months and 37 days old. The funeral will be held on Thursday, Rev. Meach to conduct the services.

Visited the State Fair.

The Grand Rapids band, under the leadership of Prof. J. W. Merrill, played two days, Friday and Saturday at the state fair, getting back home here on Sunday morning. There were about thirty-five men in the organization, and judging from the comments down there and the manner in which they were treated, they gave pretty good satisfaction.

The fair this year was better than usual and many who have been there year after year say that it was the best that has ever been held in Milwaukee. There was a fine agricultural exhibit, while the samples of fruit was something out of the ordinary. There was also a big display of farm machines of all kinds, as well as engines for operating different devices on the farm.

An effort was made this year to get manufacturers of automobiles to display their wares and enough of them responded to make quite a showing.

There was a large number of blooded cattle, sheep, hogs and horses there, and this part of the exhibition was well worth anybody's time who is interested in any way in farm work. Besides, in a Currier Aeroplane, made flights every day, and the events he did while up in the air made many of those present sit up and take notice. On Saturday he made a high flight and got to an altitude of 10,000 feet, although he stated afterward that he was not trying to break any records, and could have gone higher had he desired.

There was a tugboat of National Guard boys on the grounds and on Saturday they gave a sham battle and this attracted a great deal of attention.

Telephone Co. Makes a Good Showing.

The Wood County Telephone Company of this city was inspected by a man from the railway rate commission on September 11th. Forty-one test calls were made, and the average time required to get control was three and nine-tenths seconds. Eighty-five per cent of the calls were answered in five seconds or less, 95 per cent in six seconds and 100 per cent in 14 seconds.

The standard as set by the state was that the average shall not be more than four seconds, 85 per cent shall be within 5 seconds, 95 per cent within 7 seconds and 100 per cent within 12 seconds.

Mahoney-Kruger.

Miss Cecile Mahoney and Fred Kruger, both of this city, were married on Sunday evening at the Congregational parsonage, the ceremony being performed by the Rev. Fred Staff. They were accompanied by Miss Cora Wright and George Laine. The wedding was a very quiet one, they having neglected to tell even their closest friends of the affair.

Both of the contracting parties are well and favorably known in this city and have many friends to wish them a happy journey thru life. Mr. Kruger is employed at Madison as an electrician and may decide to make his home there.

Barn Burned.

The barn of Wm. Neitzel on the Sand hill was struck by lightning during the storm Sunday evening and burned to the ground. Mr. Neitzel saved his stock, but lost some hay and harness. He carried a small insurance.

We Are All Farmers

Most men can eat a slice of bread in two minutes.

But it took the farmer a whole year to raise the wheat for that bread.

The farmer works hard for his money. Anything which you work hard for is worth keeping. It is much more difficult to steal and carry away a crop than it's equivalent in cash.

You can't find a safer place than this bank.

After all, we are all farmers. Our earning period is our season of plenty—our harvest time.

During that period, we must save for the winters of old age and misfortune.

We can do this best by banking.

OLD BUFFALO SKULL
FOUND ON ADAMS FARM

Marshfield News.—R. W. Adams of the town of Hills has made several interesting finds while plowing on his farm, and the latest and probably most important of them is a collection of buffalo bones. The largest single piece is a portion of the skull and two horns, which indicate that the animal to which they belonged was of great size, as the horns are more than four inches through where they join the skull.

Mr. Adams has quite a collection of curios, to which the buffalo relics were a valuable acquisition. It is a good many years since the buffalo roamed the western plains in thousands, and it must be much longer since the animals were driven out or exterminated in Wisconsin, a matter of sixty or seventy years.

The sandy soil of the town of Hills has yielded a number of relics of old Indian times, such as arrow-heads, stone axes, copper and earthen kettles, etc.

With the Good Templars.
(Continued)

At the weekly meeting of Grand Rapids Lodge No. 5, I. O. G. T. Monday night a large representation was present, members being present from Vesper, Sigel, Seneca, and the town of Grand Rapids. Mr. R. S. McNaughton of Kaukauna, Wisconsin, was an interested visitor.

The Secretary read two propositions for membership to be balloted upon at the next meeting. Reports were made in regard to the "German Auction" to be held for the benefit of the lodge, Sept. 25. A select musical and literary program under the direction of Mr. Roland R. Baldwin is being arranged for this occasion. Admission will be free.

It was announced that Hub District Lodge No. 24, comprising the Good Templar lodges of Marshfield, Abbottsford, Stratford, Loyal and Necedah would probably meet in the city of Grand Rapids early in October as the guests of Grand Rapids Lodge No. 5.

At the close of the regular order of business an elaborate Good of the Order program was rendered under the direction of Miss Lillie Jero, First Lieutenant Company "A," side of the Good of the Order contest. A feature of this program, which was lengthy and entertaining and consisted of solos, duets and sextettes, readings, recitations and tableaux, was the Tableau "Rock of Ages" beautifully portrayed by Miss Olive Feavel and the singing and piano playing by Mr. Hugo Lind and Miss Eva Lind.

At the recent annual session of the Wisconsin Grand Lodge held at Wau-paca Chain of Lakes, Grand Rapids reported as the largest lodge in the state, having held this post of honor for nearly a year past.

Notwithstanding the heavy handicap of the hot summer months and the lethargy generally prevailing during certain parts of the year in all organizations Grand Rapids lodge has met regularly with more than 75 per cent of its membership present.

Monday night, October 2nd, a special effort will be made to have every member of the lodge present or accounted for, as all present that night will be aligned on one of the two sides for the contest which is now on with a vengeance. Members not present that night will be barred from participating in the contest as per a vote of the lodge.

He is almost a giant in stature, a great hulking, shaggy man with eyes that blaze with bitter resentment and a voice that sounds like the roar of some mighty animal.

He enters the house of his brother with black passion in his heart, intent upon finding his little girl whom the same brother has kept from him. Before he sees his brother he meets with Manson, the mysterious servant, who is also his own blood brother, but who is keeping his identity secret that he may influence for good those in the house who are in need of help.

The mysterious servant, transforms the Drain-Man into a useful member of society and implants in his heart the spark of brotherly love. He teaches him the glory of labor and shows him that the cleaning up of drains is a necessary occupation. In the end the Drain-Man finds genuine pride in his task and glories in the thought of his usefulness.

FATAL ACCIDENT
NEAR JUNCTION CITY.

Stevens Point Journal.—Frances Lutz, aged ten years, died at the home of her parents, Mr. and Mrs. Martin Lutz, about a mile west of Junction City, at 10 o'clock Monday forenoon, as the result of an automobile accident. At about 10 o'clock Sunday forenoon a party of little girls were on their way to church, coming east towards the Junction. At the same time a freight train loaded with cattle was passing over the Soo line and the attention of the girls was attracted to it. At the same time an automobile owned and driven by Matt Kruger of Stanley was going west, the two occupants of the car being on their way home from the state fair. When the girls came up a hill and started down a decline in the road, their attention still attracted to the railroad train, the auto was going in the opposite direction and was close to them. The driver says he tooted his horn and then called to the children, but apparently they did not hear him. The little girl was struck by the car, hit in its not known whether she was injured by one of the front wheels or by the fender. The auto stopped and the girl picked up and taken to the office of Dr. S. S. Leith at Junction City. Upon examination it was found that there were no serious bruises or marks on her body and little indication of a severe shock. She was taken home and Dr. Leith visited her about two and a half hours later. At that time indications of internal injuries had become more pronounced, and she died at 10 o'clock Monday forenoon. Dr. Leith and Dr. Skvor of Milladore held a postmortem today. They found that the little girl had suffered a rupture of the stomach and also of the large intestines. There were also internal bruises.

After the little girl had been taken to her home Mr. Kruger proceeded on his way to Stanley, but left his name and the number of his machine.

Good Advice to Boys.

Boys, no doubt are offered a lot of advice, all of which is probably good, but most of which is not heeded. The following, however, taken from the "Republican and Press" of Neillsville, Wis., should not be passed lightly over by our boy readers for it is full of meaning and truth:

"If a boy is eager to enter a work that will exercise all his talents, let him go into general farming. In his business transactions he will meet with men who will call into play all the knowledge of human nature that any other business requires. In actual operations on the farm he will come in contact with the forces of nature in such a way as to give full exercise to every mental and physical power of his being. The solution of the questions of the soils, of seeds, of tillage, of crop rotation, of weed destruction, of feeding and breeding domestic animals, the operation of farm machinery, the planning and erection of farm buildings, are a few of the things upon which he may exercise his talents. Indeed so many and complex are the problems of modern farm life, that no man need hope to become an expert in all its branches; but if it is scope for his talents that he is looking for, any fair sized Wisconsin farm will furnish it."

There is also much greater opportunity for a boy to gain renown, honor, etc., from the farm than from the city. He may more easily become a leader, conspicuous, because of merit, because of character, honor, truthfulness, and because he thinks and acts to a purpose. He will be called upon to lead in the affairs of his town, county and state, in the halls of legislation in his state and at the capital of his country.

The farm is where strong, rugged character and manhood are built. Stay there boys, and make something of the opportunities offered. Don't be satisfied with the fact that you can do a big day's work, but remember that fortunes are not made by hard manual day's work. No matter how very rich working hard with his hands. Brains and active, thinking mind, able to lay out work for men to do with their hands, is what is needed to bring wealth. Good planning, good executive ability which readily comes to the man who reads and studies and who trains his mind, are essentials in gaining prominence and wealth.

Alex Jones, who has been employed in the east for a couple of years past, arrived in the city on Monday to visit his parents, Mr. and Mrs. W. T. Jones, for a few days. Alex will attend the University of Wisconsin during the coming year, and leaves in a few days for Madison to take up his studies.

E. L. Hayward, proprietor of the Grand Rapids Business College, received two new Remington visible typewriters last week which were added to the equipment of his school. He reports that the number of students this year was greater than ever before, which would indicate that the school is giving satisfaction.

Laird Warner, who gained quite a reputation as a wrestler at the University the past year, had a friendly bout with Earl Carter, buttermaker at Chambers Creamery at the 21st club rooms on Tuesday afternoon, which was witnessed by a few invited friends. Carter won the fall in six minutes of hard wrestling. Laird put up a fine showing against Carter, who outweighed him about thirty pounds. Several more bouts will be pulled off this week by Laird Warner with Anthony Loose, Don Johnson and Arpie.

SALE.—On Monday, Sept. 25, a white Angora dog will be sold by returning to Louis Lefay.

War in Grand Rapids.

—War has been declared by the local Cigar Manufacturers. Not a bloody war, where shot and shell fly thick but a good honest fight against all outside made cigars, —cigars that are not made in our city.

Our army consists of four soldiers who reside here and purchase all goods that are obtainable right at home. These four soldiers are tax payers and are helping to increase the population and business of our city. When purchasing an outside cigar you do not know under what conditions they are manufactured. Many are made by Chinamen in San Francisco, and other coast towns, and the chinaman WORKS UNDER THE MOST UNSANITARY CONDITIONS.

Tens of thousands are made in New York tenement houses where the head of the family goes to some large manufacturing concern, and is given so many pounds of tobacco, out of which he must make so many cigars. He takes it home and the whole family gets busy making cigars in their two living rooms. Such conditions are not found in our Grand Rapids factories. Everything is kept clean and cigars are made under the best possible sanitary conditions, so when you buy a cigar that is made at home you are guaranteed a good clean smoke.

Now Mr. Smoker we want you to join our army and help us win our fight against outside goods and at the same time help boost for a bigger and better Grand Rapids, for we are all "Out to Win," and for all we win.

Refreshments will be served by the North Side Division with Mrs. Guy Nash, Chairman and Mrs. Braundage Vice Chairman.

Prefers Home to Convent.

Fond du Lac, Sept. 16.—Love at first sight has proved more compelling than a carefully considered determination to enter a convent, hence Miss Ruth Weller will shortly become the bride of District Attorney George Bliss Nelson of Stevens Point, instead of assuming the vows of the Sisterhood of the Holy Nativity. The engagement has been announced by her parents, Bishop O'Connell and Mrs. Weller of this city. Miss Weller is an attractive and popular girl, graduating with honors from Graceland Hall and Wellesley. She had arranged to enter the local convent of the sisterhood soon. Some time ago she attended a Stevens Point wedding and met Mr. Nelson. It was a case of love at sight with both. Hence the change in plans.

A Sad Accident.

Laura, the little eight year old daughter of Mr. and Mrs. George Wolf, who live near Junction City, had her right hand badly lacerated and several fingers crushed on Saturday evening in a corn shredder. The little girl had stepped on the platform to watch her father who was feeding corn into the machine, when the wind blew her dress into the chains of the machine, and in trying to pull out her dress her hand was caught. Dr. Locze was at once called to dress the wounds and since the accident the mother and the little girl have been staying at the Commercial Hotel. It is the intention of the attending physician to try and save the little one's hand.

Weather Observer Raymond reports that 1.79 inches of rain fell here during the storm of Sunday night. South of here a larger amount fell.

W. C. Weisel has the alterations to the front of his store completed and it now presents a much improved appearance. He now has some show windows that are as nice as any in the city.

H. Y. Anderson, the wagonmaker, sold his 240 acre farm near City Point in Jackson County to H. F. Krenn of Fond du Lac. The deal was made through the Grand Rapids Real Estate Company.

Frank Sidorsky of the town of Grant was arrested on Monday afternoon for being drunk and disorderly. Upon being taken before Justice Pommerville he pleaded guilty to the charge against him and paid a fine and costs amounting to \$5.70.

PROSPECTS BRIGHT
FOR AUTO FACTORY.

It looks at the present time as if the Crowe Motor company might locate its factory in Grand Rapids. The matter has been going over by most of our citizens and as a general thing they have not only expressed themselves as well satisfied with the prospects but have subscribed for some of the stock, which is more to the point.

W. A. Crowe met with our business men last Wednesday afternoon and explained to them what the new company proposed to do and what they wanted in order to locate here. His demands seem to be most reasonable, and there was apparently no effort on the part of the promoters to get the best of the people here in any way. After the matter had been discussed in open meeting the matter of how much in the way of subscriptions for stock was looked into, and those present pledged themselves in the sum of about eighteen thousand dollars.

This was not as large an amount as Mr. Crowe had hoped to raise at that time, but Mr. Darga started out the next day and had no trouble in securing enough so that Mr. Crowe was satisfied that the people here were in earnest and he consented to send for his model car. This was done, and word since received from him is to the effect that he will be here with the car on Thursday morning.

At this writing the people of this city have subscribed for about fifty thousand dollars of the stock, and not all of our people have been approached on the subject. Also a number of those who have subscribed have made the statement that they would take more of the stock provided it was necessary for them to do so in order to get the factory located here.

As the matter now stands it looks very much as if there would be no trouble in handling the proposition. Several of our citizens have also signed their willingness to donate sites for the location of the factory, so that it is not expected that there will be any trouble along this line.

A Fine Hunting Lodge.

The Carey Concrete Company today shipped a carload of concrete blocks and brick to Vilas County which will be used in the construction of a model hunting shanty for the "Nash Ranch." The building formerly occupied by them was burned this summer and they have leased a piece of land from the state for a period of twenty years and will build their new shanty near White Sand Creek. The new building will be 24x30, with eight foot walls, hip roof, concrete floor, fire place, lighted with a Pool Proof Gas Lighting System, and be absolutely fire proof. The work will be done by the Mosher Bros. and W. H. Carey and Fred Mosher expect to leave for there on Friday to get things started.

Noltner-Alexander.

Miss Ella Noltner and Russell Alexander were married on Tuesday morning, Sept. 19th, at the Catholic parsonage, Rev. Wm. Rolling officiating. They were attended by Miss Lorretta Noltner of this city and Miss Alexander of Milwaukee. After the ceremony the wedding party repaired to the home of the bride's parents, Mr. and Mrs. W. F. Noltner, where a sumptuous wedding dinner was served.

The happy couple left the same day for Chicago on their wedding tour and upon their return will make their home in this city.

Get a Big Contract.

John Mosher returned on Sunday from Cornell, where he had been for several days closing up a deal with the new paper mill company to build from twenty-five to thirty new houses for them this fall. Mosher Bros. will leave for there with a crew of men to commence operations just as soon as they complete their job of remodeling the Hoskinson building on Grand Ave.

Tigers Beaten.

An aggregation of ball players from Rudolph, known as the Tigers, were defeated in a one sided game at the ball park on Sunday afternoon by the Consolidated paper makers team by a score of 17 to 3. Battery for Rudolph was Roberts and Roberts and for the papermakers Fahrner and Hofstetter. There was a small attendance.

Cole's Hot Blast Heater is Guaranteed to be a Money Saver.

—It is guaranteed to save a third in fuel over any lower draft stove of the same size, and we have a letter from the Cole Manufacturing Co. to this effect. Besides this, Cole's Hot Blast burns any kind of fuel, soft coal, lignite, hard coal, crushed coal, wood or cobs. Don't wait until the season is well on and the cold weather is here before investigating the merits of this remarkable heater. We have them on hand and will be glad to show them to you. The price runs from \$12.00 up.

Christian Science Lecture.

The Christian Science Society of this city announces a Christian Science lecture on Thursday evening, September 21st, at Daly's Theater at 8 o'clock p. m. Judge Clifford P. Smith will be the speaker off he evening. Mr. Smith is a member of the Board of Lectureship of the First Church of Christ, Scientist, of Boston, Mass.

Died of Diphtheria.

Carl Looch, the son of Mr. and Mrs. Herman Looch, died on Tuesday from diphtheria. Deceased was 9 years, 5 months and 27 days old. The funeral will be held on Thursday, Rev. Masch to conduct the services.

Visited the State Fair.

The Grand Rapids band, under the leadership of Prof. J. W. Merrill, played two days, Friday and Saturday at the state fair, getting back home here on Sunday morning. There were about thirty-five men in the organization, and judging from the comments down there and the manner in which they were treated, they gave pretty good satisfaction.

The fair this year was better than usual and many who have been there year after year say that it was the best that has ever been held in Milwaukee. There was a fine agricultural exhibit, while the samples of fruit was something out of the ordinary. There was also a big display of farm machines of all kinds, as well as engines for operating different devices on the farm.

An effort was made this year to get manufacturers of automobiles to display their wares and enough of them responded to make quite a showing.

There was a large number of blooded cattle, sheep, hogs and horses there, and this part of the exhibition was well worth anybody's time who is interested in any way in farm work.

Bowling, in a Currier Aeroplane, made flights every day, and the stunts he did while up in the air made many of those present sit up and take notice. On Saturday he made a high flight and got to an altitude of 10,000 feet, although he stated afterward that he was not trying to break any records, and could have gone higher had he desired.

There was a regiment of National Guard boys on the grounds and on Saturday they gave a sham battle and this attracted a great deal of attention.

Telephone Co. Makes a Good Showing.

The Wood County Telephone Company of this city was inspected by a man from the railway rate commission on September 14th. Forty-one test calls were made, and the average time required to get central was three and nine-tenths seconds. Eighty-five per cent of the calls were answered in five seconds or less, 95 per cent inside of six seconds and 100 per cent in 14 seconds.

The standard as set by this state was that the average shall not be more than four seconds, 85 per cent shall be within 6 seconds, 95 per cent within 7 seconds and 100 per cent within 12 seconds.

Mahoney-Kruger.

Miss Maude Mahoney and Fred Kruger, both of this city, were married on Sunday evening at the Congregational parsonage, the ceremony being performed by the Rev. Fred Starr. They were accompanied by Miss Cora Wright and George Lane. The wedding was a very quiet one, they having neglected to tell even their closest friends of the affair.

Both of the contracting parties are well and favorably known in this city and have many friends to wish them a happy journey thro life. Mr. Kruger is employed at Madison as an electrician and may decide to make his home there.

Barn Burned.

The barn of Wm. Neitzel on the sand hill was struck by lightning during the storm Sunday evening and burned to the ground. Mr. Neitzel saved his stock, but lost some hay and harness. He carried a small insurance.

We Are All Farmers

Most men can eat a slice of bread in two minutes.

But it took the farmer a whole year to raise the wheat for that bread.

The farmer works hard for his money. Anything which you work hard for is worth keeping. It is much more difficult to steal and carry away a crop than it's equivalent in cash.

You can't find a safer place than this bank.

After all, we are all farmers. Our earning period is our season of plenty—our harvest time.

During that period, we must save for the winters of old age and misfortune.

We can do this best by banking.

FAITHLESS CORN.

Corn has decided to do without the respect and admiration of the people. The promise of the crop at the period following early seeding was unexcelled, and every ear of corn and every stalk of wheat could be congratulated for the realization of last year. The immense crop of 1910 had cheapened food considerably, and another large one this year would have had a tendency to settle prices for a couple of years or more, provided no real shortage occurred in the crops of those years, says the Providence Journal. But the current stock of information about the 1911 crop makes the prospects for such a substantial arrangement for trade and business wherever dependent on the crop anything but bright. Beef and hogs, with poultry, will be the corn-eaters most directly affected. There is danger of a repetition of the highest prices for them, and of the possible maximum charge once more for eggs and fresh fowls. Three months ago the promise under which these all have been sold since last fall brought a large supply of cheap corn into the market. Today the indications are of a rise to the figures of last summer and of September and October of last year. It is possible that the warm weather and drought conditions have not seriously hurt the crop and that the quotations for corn will fall off correspondingly when the real facts are shown to be more propitious.

Among the other interesting pieces of news set afloat this summer is one coming from the shoe-makers of Houghton to the effect that women's feet are growing larger. The shoe-makers do not like this, as more leather is thus required for every pair of shoes turned out. Chicago, having heard the word from Boston, has explanations ready. A large retailer of women's footwear in the Windy City admits that women's feet are growing larger, but says this is due to outings and athletics. For several years, he declares, women have been taking more exercise, doing more walking, playing more games.

Last year there died in the United States of pulmonary tuberculosis about 180,000 people. Multiply this number by three and a fraction—the ratio of India's population to our own—and you will find that these terrible figures covering the loss of life from the plague in India, when analyzed, show that out of a thousand men, women and children in the United States, practically as many die of consumption in the ordinary year as died of the plague in India during the past six months of epidemic. It really seems as if civilized America ought to be able to do a little better than that!

DELATED RETURNS FROM RURAL DISTRICTS TURN TIDE FOR PROHIBITION.

MAJORITY OF 465 IS SHOWN

Most Towns Have Been Heard From Officially and Reported Victory for Repealers of Law Is Turned Into Defeat—Primary Act Wins.

Portland, Me.—Dated returns from the rural districts of the state have turned what seemed a victory for the "wets" into a defeat and the constitutional amendment providing against meddling with the prohibition law is still operative.

The total vote stands: For repeal, 60,216; against repeal, 60,511. Most of the towns yet to be heard from have been unofficially reported with small majorities favoring retention of the prohibition amendment in the constitution, and any change in the vote of the prohibitionists is likely to help the prohibitionists.

The town of the returns, but say that the result is close enough to warrant a recount of the ballots by the state legislature. The "drys" had practically decided on such a step when it appeared that they were defeated, and it is not believed that they will oppose the plan of the "wets," who are now demanding a recount. The legislature is Democratic, but is not favorable to the "wet" cause.

In addition to the 465 majority shown by the clerks' returns, there are fifty more "dry" votes known to exist in Portland, which are not included in the clerk's report because of an admitted error. It is necessary the anti-repealers will petition for a recount.

The change from an apparent victory for the "wet" side by 1,400 votes in favor of the "drys" came as a big surprise. The prohibitionists had practically conceded defeat, while representatives of those who sought the repeal of the constitutional amendment had sent out numerous statements on the strength of their apparent safe majority.

Of the other referendum questions before the people Monday, that proposing to make Augusta forever the capital of the state and that favoring the direct primaries act, were carried by large majorities, according to returns at hand.

One of the minor propositions was that of a new state seal, which was voted down by a large majority. The vote on the minor propositions was: Retaining capital of Augusta: Yes, 42,205; no, 30,410.

Direct primaries: Yes, 55,840; no, 17,761.

STOLEN GIRL SLAIN

BODY OF GIRL KIDNAPED FROM MADISON, WIS., FOUND.

Proof of Strangling, but Police Believe Annie Lemberger Was Murdered for Revenge.

Madison, Wis.—Annie Lemberger, seven years of age who was mysteriously stolen from her bed on September 4, has been found. The child's body, which was taken from Lake Monona, was found in a shallow lake near the shore of George W. Post, 41 now under indictment on six counts on complaint of Fred W. Hansen of Evansville, Wis.; Joseph Millsap of Brooklyn, Wis.; Richard G. Mason of Geneseo, Wis.; and W. F. Fehd, all of Jefferson, Wis. They declare that they received the child from the parents of the child, who were paid \$1,000 for the child.

There was no visible evidence of violence so far as a superficial examination disclosed beyond, perhaps, a slight laceration of the lower arm. A discolored area on the neck, however, as if from manual causes, may indicate that the child was strangled. The little body was entirely nude and was discolored, having been in the water several days.

The body was found by George Younger, a cement worker living at South Madison. There was a peaceful expression on the face of the child at the underlining rooms, where she was brought by the police ambulance in charge of Capt. Henry Davenport. The most plausible theory is murder for revenge.

The child was taken from her sleeping room at the home of her parents, Mr. and Mrs. Martin Lemberger, early in the morning of September 4. The child was clad only in a night gown, but even this was gone. Long brown hair, wet and bedraggled, streamed down from the little head. The body was found about a mile from the stricken home. It may have been dropped from the railroad bridge across the bay. If not, then the child was taken out in a boat and thrown overboard and drifted near the shore.

DECREASE IN GRAIN SHOWN

Government's Report Says Crop Yield Will Be 734,000 Bushels Short of Last Year.

Washington.—Grain crops of the United States aggregate 4,409,000 bushels, an increase last month of 136,000 bushels, but a loss of 734,000 bushels from last year, according to the government crop report. While weather conditions practically throughout the country were reasonably favorable to growing crops during the month of August, the crop report did not indicate generally much improvement in the condition of the crops over that of a month ago.

Some improvement was shown in the great staple crop of corn as of September 1 over August 1, but it amounted to only seven-tenths of one percent in the aggregate. The yield of corn this year, as indicated by the report, will be 23.6 bushels per acre, as compared with 27.4 bushels last year.

Wheat shows a falling off of approximately ten per cent. in condition as compared with the average for the last ten years.

On the whole a considerable falling off both in condition and in average yield per acre. While the average yield for this year is 23.6 bushels an acre, the final yield for 1910 was 31.3 bushels.

HELD FOR BIG THEFT

FEDERAL OFFICERS ARREST S. A. POTTER, ALLEGED LEADER OF "CON" MEN.

LOOT TOTALS \$1,500,000

Alleged Gold Brick King Arrested After Long Search—Government Refuses Bond of \$50,000 for Release of Accused Man.

Chicago.—S. O. Potter, alleged leader of a band of confidence men who is said to have earned \$1,500,000 through sale of "gold bricks" and green goods, was arrested by federal authorities. Sent in a Turkish chair in the parlor of his luxurious home at 1223 East Fifty-second street, Potter was smoking a cigar and reading a newspaper when the officers arrived.

The sum of \$50,000 offered for Potter's release was refused, and the prisoner was taken to the county jail following a preliminary hearing before United States Marshal Hoy.

Potter was arrested by C. F. De Woody, division superintendent of the United States secret service here, on charge of operating a confidence game in Wisconsin. In addition, his operations are said to have covered the principal cities of the world and his loot to have amounted to not less than \$1,500,000.

Potter is alleged to operate with a gang, chief of whom is his special companion, Edward Starkloff, alias E. A. Stenver, E. A. Sutton, E. A. Snel, E. A. Snel, E. A. Snel, Frank Norris, Francis Norris, Frank Allen, Ellis Sharkey and E. A. Sands. Starkloff is said to use the name of Allen more than his other aliases. He and Potter are known to the police as the "Gold Dust Twins." Between them they are said to have separated "suckers" from thousands of dollars.

Potter and his friends are reported to have cleaned up \$1,500,000 in cash in the last few years, and have carried out their schemes successfully in London, Paris, Berlin and Vienna. Potter, arrested here under the name of George W. Post, 41 now under indictment on six counts on complaint of Fred W. Hansen of Evansville, Wis.; Joseph Millsap of Brooklyn, Wis.; Richard G. Mason of Geneseo, Wis.; and W. F. Fehd, all of Jefferson, Wis. They declare that they received the child from the parents of the child, who were paid \$1,000 for the child.

Chicago, New York and Philadelphia were the greatest centers of his operations, and his crowd in America, but a year ago Potter and Starkloff were arrested in the latter city and indicted for operating a confidence game. They furnished a cash bond of \$25,000 and disappeared, and the department of justice offered a reward for them. Potter will be taken to Philadelphia where the Wisconsin matter is disposed of.

SEA-TO-SEA AIRMAN FALLS

Fowler Slightly Hurt and Aeroplane Wrecked at Gold Run, Cal., in Cross-Continent Flight.

Gold Run, Cal.—Iron nerve and lightning wit alone saved the life of Aviator Robert G. Fowler, contestant for the \$50,000 ocean-to-ocean prize here.

His rudder quit working when he was several hundred feet in the air. Half a mile further on were the deep, east canyon on the great Sierra.

The aviator started making great circles, using the control of his rudder alone, and after two desperate swoops in the air, came to earth, but bruised and strained. In the descent he smashed into two giant pine trees.

The planes of the machine were wrecked, the wires torn and broken, and the uprights twisted out of shape. It will take three or four days to put the machine in shape for Fowler to continue his flight.

The accident was particularly distressing to Fowler, because it was only a few days before he was to start his flight when it occurred. He had covered 31 miles in less than an hour.

THIRTY HURT IN CYCLONE

Town of Hobart, Mich., Is Swept by Terrible Storm—Property Damage \$500,000.

Onitake, Mich.—Thirty persons injured, six seriously, sixty dwelling and business buildings leveled to the ground and property damage of more than \$500,000 is the result of the cyclone which swept the town of Hobart and Wexford county.

Louis Wenzel, who, together with three other members of his family and Miss Lillian Swanson, were buried under the debris of the demolished post office building in Hobart, probably will die, according to physicians. All the other injured in hospitals here will recover, it is expected.

Counterfeiters on the Coast. Washington.—The secret service believes that a dangerous gang of national bank note counterfeiters has been lying low for a year is again operating on the Pacific coast. A counterfeit \$10 note on the Pasadena (Cal.) National bank, brought to secret service headquarters, was declared to be the work of the gang.

BEATTIE MUST DIE

VIRGINIAN IS CONVICTED OF MURDER.

Condemned Slayer Shows No Emotion When Judge Sentences Him to Death on November 24.

Chesterfield Courthouse, Va.—Henry Clay Beattie, Jr., was convicted of the murder of his young wife, Louise Owen Beattie, on the Midlothian turnpike on the night of July 18 last, and unless a higher court than that in which he was tried intervenes he must die in the electric chair in the penitentiary at Richmond on November 24.

Beattie heard the verdict without a tremor. He faced the twelve men at the order of the clerk, and looked directly into the eyes of those who would pass his sentence. The court-room showed the nervous, tense strain under which everybody has been laboring for days, the crowd bending forward as the foreman of the jury spoke the fatal words.

Beattie's senior counsel, Harry N. Smith, asked that the verdict be set aside as contrary to the law and evidence. The judge refused to grant this motion, which was, however, a mere formality to pave the way for the appeal which is to come to the higher courts.

The attorney Smith made an appeal for a stay of sentence. Again he failed. Judge Watson ruling that he thought sentence should be pronounced immediately, and thereupon sentenced Beattie to death, setting the date as November 24.

HURRY U. S. SHIPS TO CHINA

Admiral Murdock Takes Three Cruisers to Protect American Missionaries From Rioters.

Washington.—All the American naval strength deemed necessary as a precaution is being concentrated as near as possible to the scene of riot and bloodshed in China.

Admiral Minkley called to the navy department that he called on his ship Saratoga, accompanied by the cruisers New Orleans and Helena from Shanghai for Nanking. The admiral's report contained nothing regarding the situation in China.

More than twenty rioters and a number of soldiers have been killed in battle during the past few days, resulting from attacks of the infuriated and dissatisfied natives upon the missionaries and residents of the province of Szechwan. This information, the first news of bloodshed in the present disturbances, has reached the state department.

Rioters of the agitation have been arrested by the victory of the province. This inflamed their followers and resulted in a vicious attack upon the Yamen, the residence of Cheng Tu and the victory by the mob. The soldiers fired into the rioters, killing more than twenty of them.

The mob returned and in a subsequent assault upon the vicerey's residence slew a number of the troops. Latest news in regard to the conditions is unattractive as the telegraph wires between Cheng Tu and Chungking have been cut.

Reports to the state department indicate that the American women and children have already left Cheng Tu under escort, and it is thought that others also have departed.

ASTOR AND MISS FORCE WED

Ceremony Takes Place at Colonel's Summer Residence at Newport, Congregational Pastor Officiating.

Newport, R. I.—Col. John Jacob Astor and Madeline Force were married at Beechwood, the colonel's summer residence here, by Rev. Dr. Joseph Lambert, pastor of the Elmwood Temple, Congregational church of Providence.

Half an hour after the ceremony Mr. and Mrs. Astor were aboard the yacht Noma on their way to Penikese, the millionaire colonel's estate at Rhinecliff-on-the-Hudson, where the honeymoon will be spent. As he handed his wife into the automobile ready to whirl them to the yacht landing, the bridegroom paused long enough to say that he was happily married, and that he was not a Catholic, divorce and remarriage laws are made. I sympathize heartily with the most straitlaced people in most of their ideas, but I believe remarriage should be possible on any marriage is the happiest condition for the individual and the community.

PICK LAKES-TO-GULF ROUTE

Pathfinders for Great Highway Are Scouting From Florida to Chicago.

Nashville, Tenn.—Pathfinders from Pensacola, Fla., who are scouting to establish a route for a lakes-to-gulf highway, arrived here. Their next stop will be in Bowling Green.

Annie Lemberger.

BRUTE CONFESSES TO SLAYING CHILD

'DOGSKIN' JOHNSON ADMITS ASSAULT AND MURDER OF MADISON GIRL.

RUSHED TO WAUPUN PRISON

Life Sentence Pronounced at Secret Court Session and Prisoner Is Sprayed Away in Auto—Johnson a Degenerate Through Drink.

Madison.—John A. (Dogskin) Johnson, who steadfastly professed his innocence, even while bloodhounds were hunting him down for the brutal murder of Annie Lemberger, finally confessed the crime and within five hours began serving a life sentence in Waupun.

Arraigned in Judge Donovan's court, Johnson entered a plea of not guilty. The fear which lagged at his heart as he was taken back to his cell, however, soon caused him to

and I would like to be sentenced at once," replied Johnson, when the court asked if he had anything to say before being sentenced.

The judge then pronounced the life sentence, with one day each year, the anniversary of the terrible crime, to be served in solitary confinement, on bread and water.

As soon as sentence was pronounced Johnson was hurried back to the jail and an automobile summoned from a city garage.

Before he was bundled into the auto Johnson was carefully searched for weapons and anything else by which he might try to escape or commit suicide. He was on his way to Waupun within forty minutes after he was sentenced.

In a partial confession made to the authorities, Johnson said he had no motive in committing the crime.

On the night of the kidnapping and murder Johnson said that he went to bed drunk. He could not sleep, he said, and finally got up and put on his clothes. He went out to see if he could find a saloon open to get more to drink, but while passing the Lemberger house he thought of having seen Annie Lemberger sleeping near a window, and some devilish impulse urged him to steal her.

He stepped over to the window, quietly unfastened and raised it, and then lifted the child from her couch without putting his foot inside the room. He said that when he lifted her out she stirred uneasily and was awakening. To prevent her from making an outcry and arousing the other members of the family he struck her on the head with his clenched fist. Then he lit her again and again, until she became limp in his arms.

Then he took her across the street from the Lemberger home and laid her down in a vacant lot which was filled with high weeds.

Johnson said that after he laid the child down in the weeds he began to realize the awfulness of his crime and he began to think of the best way to get out of the affair without being discovered. He said that the child did not show any signs of life and he thought she was dead. He lifted her up and ran with her to Lake Monona bay, six blocks away, and hurled the body into the water.

ASK \$250,000 FOR BUILDINGS

State Fair Board Points Out Need of Improvements on Grounds to Visiting Legislators.

Milwaukee.—A new fireproof grandstand of steel and concrete costing \$100,000 may result from the visit of fifty members of the legislature to the state fair on Wisconsin day. An appropriation of \$250,000 to cover the cost of erecting the proposed stand and other buildings was asked.

President Hill, state fair board, pointed out to the members of the legislature that the greatest need of the fair was a new grandstand. The present structure is inadequate in size. He urged the need of an appropriation of \$250,000 to be spread over a term of three years. Three years ago there was an appropriation of \$150,000. Of this sum there is still \$25,000 in the treasury.

Other improvements asked by the fair board were: A concrete hog building to cost \$25,000; a \$20,000 poultry building; a large building to house the arts and mercantile exhibits, and additions to the hospital, educational building and women's rest rooms.

May Prosecute Ministers. Kenosha.—Prosecution of several Kenosha ministers is threatened on account of their failure to report marriages performed. It is said hundreds of dollars are due the state for failing to report.

Manitowoc County Girls Win. Manitowoc.—Honors in the "spelling bee" conducted at the state fair were won by Emma Brann and Susan Reif, Manitowoc county school girls.

Boy Believed Kidnaped. Baraboo.—The 5-year-old son of Owen McNamara of Webster's Prairie is believed to have been kidnaped. The child was gathering hickory nuts near his home when the company of a passing automobile picked him up and sped away.

Joke Starts Fatal Quarrel. Milwaukee.—In a fight starting over a joke, Berthold Klau was shot through the heart by Wm. M. Nichols and instantly killed.

Prominent Menasha Man Dead. Menasha.—Joseph Long, a well known resident of Menasha, died of heart disease, aged 45. He was president of the Menasha club, secretary of the school board and cashier of the Menasha Woodmen company.

New Bank for Hawkins. Madison.—The State bank of Hawkins has been chartered. The capital stock is \$100,000 and C. K. Billingson is president and G. O. Vig, cashier.

Trempealeau.—The most terrible hail storm ever known here occurred doing an immense amount of damage. The windows on the north and west sides of every building were shattered, the high school building alone having fifty panes broken, creating a panic among the pupils. Even shingle and composition roofs were smashed on many houses. Measurements of some of the hailstones showed fourteen inches around, and five picked up at random weighed six pounds. The hailstorm lasted nearly half an hour. The damage done in the city will exceed \$2,000, and in the surrounding country reaches up to many thousands. Corn, barley and fruit trees suffered. Thousands of trees were fairly stripped of their limbs, while fowl and poultry and small stock were killed.

La Crosse.—Hail, some of it measuring seven and one-half inches in circumference, fell here. Crops yet unharvested suffered seriously. In La Crosse many windows were broken in stores and houses.

Racine.—Mayor Walter Goodland was censured at a mass meeting of Protestant congregations of the city for his action in refusing to call off the boxing exhibition staged here Friday night under protest of the Ministers' union.

The pastors who talked charged that Mayor Goodland had violated a promise made before his election that no fights should be permitted in the city during his administration. Rev. Henry Clarke, Rev. Byron Bigler and Rev. Charles Umhacker, prominent in the Ministers' union of Racine, were severe in their criticisms of the mayor, whom they claimed had "trodden under foot promises made them and had defied the law by permitting prize fights in Racine."

Appleton.—An unusual accident was witnessed by Fred V. Hennemann, George Pannan, Arnold Knipmeyer of Appleton and William Wollmer of Milwaukee, while cruising in the Hohenmann launch near the New London cutoff on the Wolf river. One of a party of five girls occupying an other launch accidentally fell overboard into the water. In their haste to rescue the girl the other four lost their balance and all five were in the water when the Appleton party and others in boats nearby rushed to their rescue. None was drowned.

Pond du Lac.—The wrecked locomotive and cars of the Velvet competitive were brought to the Soo shops at North Pond du Lac and were inspected by a big crowd of people. Seven pair of trucks under one sleeper, the discovery that not an electric light globe was broken in any of the cars and that none of the cars back of the baggage car suffered broken windows were some of the strange features noted by the railroad men. The mail car was the locomotive where it struck the ground was swept clean of pipes, etc.

Beaver Dam.—Emil J. Dehne of the firm of Dehne & Dehne, manufacturers of flour, cheese boxes, etc., also owners of the Hustlerford electric light plant of Hustlerford, committed suicide in Juneau. He purchased a revolver at a hardware store in Juneau after he had heard that the council had turned down his proposal to furnish light and power for that city, and shortly after fired a 32-caliber bullet into his right temple, dying almost instantly

GRAND RAPIDS, WIS.

FAITHLESS CORN.

Corn has decided to do without the respect and admiration of the people. The promise of the crop at the period following early seeding was unexcelled, and every ear of wheat and corn in the land could congratulate itself that this promise was equal to the realization of last year. The immense crop of 1910 had cheapened food considerably, and another large one this year would have had a tendency to settle prices for a couple of years or more, provided no real shortages occurred in the crops of those years, says the Providence Journal. But the current stock of information about the 1911 crop makes the prospect for such a substantial arrangement for trade and business wherever dependent on the crop anything but bright. Beet and hops, with poultry, will be the corn-eaters most directly affected. There is danger of a repetition of the highest prices for them, and of the possible maximum charge once more for eggs and fresh fowls. Three months ago the price of wheat under which there has been a large supply of cheap corn into the market. Today the indications are of a rise to the figures of last summer and of September and October of last year. It is possible that the warm weather and drought conditions have not seriously hurt the crop and that the quotations for corn will fall off correspondingly when the real facts are shown to be more propitious.

Among the other interesting pieces of news about this summer is one coming from the shoe-makers of Boston to the effect that women's feet are growing larger. The shoe-makers do not like this, as more leather is thus required for every pair of shoes turned out. Chicago, having heard the word from Boston, has explanations ready. A large retailer of women's footwear in the Windy City admits that women's feet are growing larger, but says this is due to outlays and athletics. For several years, he declares, women have been taking more exercise, doing more walking, playing more games.

Last year there died in the United States of pulmonary tuberculosis about 180,000 people! Multiply this number by three and a fraction—the ratio of India's population to our own—and you will find that those terrible figures covering the loss of life from the plague in India, when analyzed, show that out of a thousand men, women and children in the United States, practically as many die of consumption in the ordinary year as died of the plague in India during the past six months of epidemic. It really seems as if civilized America ought to be able to do a little better than that!

BELETED RETURNS FROM RURAL DISTRICTS TURN TIDE FOR PROHIBITION.

MAJORITY OF 465 IS SHOWN

Portland, Me.—Beleted returns from the rural districts of the state have turned the tide in the constitutional amendment providing against meddling with the prohibition law is still operative.

It now appears on the face of the returns from town and city clerks in all but 198 towns and plantations that prohibition has won in the special election by 255 votes.

The total vote stands: For repeal, 60,212; against repeal, 60,511.

Most of the towns yet to be heard from have been unofficially reported with small majorities favoring retention of the prohibition amendment in the constitution, and any change in the vote of the places is likely to keep the prohibitionists.

The foes of prohibition concede defeat on the face of the returns, but say that the result is close enough to warrant a recount of the ballots by the state legislature. The "drys" have practically decided on such a step, and it is not believed that they will oppose the plan of the "wets," who are now demanding a recount. The legislature is Democratic, but is not favorable to the "wet" cause.

In addition to the 465 majority shown by the returns, there are fifty more "dry" votes known to exist in Portland, which are not included in the city clerk's report because of an admitted error. If necessary the anti-repealers will petition for a recount.

The change from an apparent victory for the "wets" side by 1,400 votes in favor of the "drys" came as a big surprise. The prohibitionists had practically conceded defeat, while representatives of those who sought the repeal of the constitutional amendment had sent out numerous statements on the strength of their apparent majority.

Of the people Monday, that proposing to make Augusta forever the capital of the state and that favoring the direct primaries act, were carried by large majorities, according to returns at hand. With no cities, the only 196 towns missing out of 272, the vote on the minor propositions was: Retaining capital of Augusta: Yes, 4,935; no, 30,419.

Direct primaries: Yes, 55,840; no, 17,751.

STOLEN GIRL SLAIN

BODY OF GIRL KIDNAPED FROM MADISON, WIS., FOUND.

Proof of Strangling, but Police Believe Annie Lemberger Was Murdered for Revenge.

Madison, Wis.—Annie Lemberger, seven years old, who was mysteriously taken from her bed on September 10, has been found. The child's body, naked, was taken from Lake Monona. She had been murdered before being thrown into the lake. The cause of the crime still is a mystery.

There was no visible evidence of violence shown to the girl, but a slight laceration of one ear. A discoloration on the neck, however, as if from unnatural causes, may indicate that the child was strangled. The little body was entirely nude and was discolored, having been in the water several days.

The body was found by George Younger, a cement worker living at South Madison. There was a peaceful expression on the face of the child at the undertaking, where, where she was brought by the police. Development, in charge of Capt. Henry Davenport. "The most plausible theory is murder for revenge."

The child was taken from her sleeping room at the home of her parents, Mr. and Mrs. Martin Lemberger, early in the morning of September 8. The child was clad only in a night gown, but even this was gone. Long brown hair, wet and bedraggled, streamed down from the little head.

The body was found about a mile from the stricken home. It may have been dropped from the railroad bridge across the bay. If not, the child was taken out in a boat and thrown overboard and drifted near the shore.

DECREASE IN GRAIN SHOWN

Government's Report Says Crop Yield Will Be 734,000,000 Bushels Short of Last Year.

Washington.—Grain crops of the United States aggregated 4,499,000,000 bushels, an increase last month of 136,000,000 bushels, but a loss of 734,000,000 bushels from last year, according to the government crop report.

While weather conditions practically throughout the country were reasonably favorable to growing crops during the month of August, the crop report did not indicate generally much improvement in the condition of the crops over that of a month ago.

Some improvement was shown in the great staple crop of corn as of September 1 over August 1, but it amounted to only seven-tenths of one percent in the aggregate. The yield of corn this year, as indicated by the report, will be 2,350 bushels per acre, compared with 27.4 bushels last year.

Wheat shows a falling off of approximately ten per cent in condition as compared with the average for the last ten years.

Corn also shows a considerable falling off both in condition and in average yield per acre. While the indicated yield for this year is 23.9 bushels an acre, the final yield for 1910 was 31.9 bushels.

HELD FOR BIG THEFT

FEDERAL OFFICERS ARREST S. A. POTTER, ALLEGED LEADER OF "CON" MEN.

LOOT TOTALS \$1,500,000

Chicago.—S. O. Potter, alleged leader of a band of confidence men, who is said to have earned \$1,500,000 through sales of "gold bricks" and green goods, was arrested by federal authorities. Seated in a Turkish chair in the parlor of his luxurious home at 1223 East Fifty-second street, Potter was smoking a cigar and reading a newspaper when the officers arrived.

The sum of \$50,000 offered for Potter's release was refused, and the prisoner was taken to the county jail following a preliminary hearing before United States Marshal Hoy.

Potter was arrested by C. F. De Woody, division superintendent of the United States secret service here, on charge of operating a confidence game in Wisconsin. In addition, his operations are said to have covered the principal cities of the world and his loot to have amounted to not less than \$1,500,000.

Potter is alleged to operate with a gang, chief of whom is his special companion, Edward Starkloff, alias E. A. Starver, E. A. Seaton, E. A. Sheldon, E. A. Selby, A. B. Chino, Frank Norris, Francis Norris, Frank Allen, Ellis Shertley and E. A. Sands. Starkloff is said to use the name of Allen & has been arrested in London, Paris, Berlin and Vienna.

Potter, who is known to the police as the "Gold Dust" man, between them they are said to have separated "suckers" from thousands of dollars.

Potter and his friends are reported to have cleaned up \$1,500,000 in cash in the last few years, and have carried on their schemes successfully in London, Paris, Berlin and Vienna.

Potter, arrested here under the name of George W. Post, is now under indictment on six counts on complaint of Fred W. Hansen of Evansville, Wis.; Josiah Millsaps of Brooklyn, Wis.; Richard G. Mason of Genesee Depot, and G. A. Robisch, W. O. Elker and W. F. Feld, all of Jefferson, Wis. They declare that they received his literature, inviting them to purchase "money" on discount, and complained to the federal officials.

Chicago, New York, and Philadelphia were the favorite camping grounds of Potter and his crowd in America, but a year ago Potter and his friends were arrested in the latter city and indicted for operating a confidence game. They furnished a cash bond of \$25,000 and disappeared, and the department of justice offered a reward for them. Potter will be taken to Philadelphia when the Wisconsin matter is disposed of.

HURRY U. S. SHIPS TO CHINA

Admiral Mordock Takes Three Cruisers to Protect American Missionaries From Rioters.

Washington.—All the American naval strength deemed necessary as a precaution is being concentrated as near as possible to the scene of rioting and looting in China.

Admiral Mordock cabled to the navy department that he sailed on his flagship Saratoga, accompanied by the cruisers New Orleans and Helena from Shanghai for Nanking. The admiral's report contained nothing regarding the situation in China.

More than twenty rioters and a number of soldiers have been killed in battle during the past few days, resulting from attacks of the infuriated and disaffected natives upon the Yamen, or residents of Cheung-Tu and Sze Chuen. This information, the first news of bloodshed in the present disturbances, has reached the state department.

Rioters of the agitation have been arrested by the victory of the province. This inflamed their followers and resulted in a vicious attack upon the Yamen, the residents of the city and the rioters. The soldiers fired into the rioters, killing more than twenty of them.

The mob returned and in a subsequent assault upon the victory's residence slew a number of the troops.

Latest news in regard to the conditions is unattractive as the telegraph wires between Cheng Tu and Chungking have been cut since department reports to the state department indicate that the American women and children have already left Cheng Tu under escort, and it is thought that others also have departed.

SEA-TO-SEA AIRMAN FALLS

Fowler Slightly Hurt and Aeroplane Wrecked at Gold Run, Cal., in Cross-Continent Flight.

Gold Run, Cal.—Iron nerve and lightning wit alone saved the life of Aviator Robert G. Fowler, who, for the \$50,000 ocean-to-ocean prize here.

His rudder quit working when he was several hundred feet in the air. Half a mile further on were the deep canyons on the great Sierran slopes, and the control of his machine, alone, and after two desperate sweeps in the air, came to earth, but bruised and strained. In the descent he smashed into two giant pine trees.

The planes of the machine were wrecked, the wires torn and broken, and the uprights twisted out of shape. It took three or four days to put the machine in shape for Fowler to continue his flight.

The accident was particularly distressing to Fowler, inasmuch as he was making another wonderful flight when it occurred. He had covered 11 miles in less than an hour.

THIRTY HURT IN CYCLONE

Town of Hobart, Mich., Is Swept by Terrible Storm—Property Damage \$500,000.

Cadillac, Mich.—Thirty persons injured, six seriously, sixty dwelling and business buildings leveled to the ground and property damage of more than \$500,000 is the result of the cyclone which swept the town of Hobart and vicinity.

Levi Wenzel, who, together with three other members of his family and Miss Lillian Swanson, were buried under the debris of the demolished post office building in Hobart, probably will die, according to physicians. All the other injured in hospitals here will recover, it is expected.

Counterfeiters on the Coast.

Washington.—The secret service believes that a dangerous gang of national bank note counterfeiters which has been lying low for a year is again active. The gang is said to be operating on the Pacific coast. A confidential note of the Pasadena National bank brought to secret service headquarters, was declared to be the work of the gang.

"DOGSKIN" JOHNSON ADMITS ASSAULT AND MURDER OF MADISON GIRL.

RUSHED TO WAUPUN PRISON

Life Sentence Pronounced at Secret Court Session in Prisoner Is Spited Away in Auto—Johnson a Degenerate Through Drink.

Madison.—John A. ("Dogskin") Johnson, who steadfastly processed his innocence, even while bloodhounds were hunting him down for the brutal murder of Annie Lemberger, finally confessed the crime and within five hours began serving a life sentence in Waupun.

Arraigned in Judge Donovan's court, Johnson entered a plea of not guilty. The fear which tugged at his heart as he was taken back to his cell, however, soon caused him to

send for a jailer. He said he wanted to plead guilty and be sentenced.

In court, a few minutes later, he confessed the murder and made a partial confession. On his way to Waupun, after he had been sentenced, he told the real story of the crime. That story is locked in the breast of Sheriff Brown and never be a part of the court record.

Johnson made an addition to his confession to me while we were speeding from Madison to Waupun. "The nature of the confession as I now have it makes it a terrible story. There are things in it which I shall never reveal."

ASK \$250,000 FOR BUILDINGS

State Fair Board Points Out Need of Improvements on Grounds to Visiting Legislators.

Madison.—A new fireproof grandstand of steel and concrete costing \$100,000 may result from the visit of sixty members of the legislature to the state fair on Wisconsin day. An appropriation of \$250,000 to cover the cost of erecting the proposed stand and other buildings was asked.

President Hill, state fair board, pointed out to the members of the legislature that the greatest need of the fair was a new grandstand. The present structure is inadequate in size. He urged the need of an appropriation of \$250,000 to be spread over a term of three years. "Three years ago there was an appropriation of \$150,000. Of this sum there is still \$25,000 in the treasury. Other improvements asked by the fair board were: A concrete hog building to cost \$25,000, a \$20,000 poultry building; a large building to house fine arts and mercantile exhibits, and additions to the hospital, educational building and women's rest rooms.

Dies Trying to Save Friend.

Sparta.—While riding on a locomotive in the railroad yards here, Gus Larengson, a laborer, slipped and fell under the wheels. Peter Dolavins, his companion, tried to drag Larengson out of danger and both were killed.

Fourth Victim of Scoo Wreck.

Neenah.—The fourth victim of the Scoo line wreck at Fremont was claimed by death when Fred Fortune of Detroit, aged 28, died here.

Illegal Saloons Alleged.

Kenosha.—Warrants have been issued for the arrest of every one of the four saloonkeepers in the town, on account of their charge of violating the state law by selling on Sunday.

Smashed Hole in Cell.

Racine.—Ernest Frank, charged with burglary, escaped from the county jail here by smashing a hole in the ceiling of his cell with a steam radiator.

Drowning at Beaver Dam.

Beaver Dam.—Peter, Ernest, aged 29, drowned in Beaver Dam lake while returning from a pleasure resort. He fell out of a launch and, on account of the dense fog, the occupants of the boat could not rescue him.

Former Police Chief Expires.

Madison.—William Beck, who served as chief of police of this city for many years, retiring in 1881, is dead at Brownsville, Minn.

Troumpander.—The most terrible hail storm ever known here occurred, doing an immense amount of damage. The windows on the north and west sides of every building were shattered, the high school building alone having fifty panes broken. Even shingles and composition roofs were smashed on many houses. Measurements of some of the hailstones showed fourteen inches around, and five picked up at random weighed six pounds. The bombardment lasted nearly half an hour. The damage done in the city will exceed \$2,000, and in the surrounding country reaches up to many thousands. Corn, barley and fruit trees suffered. Thousands of trees were fairly stripped of their limbs, while much poultry and small stock were killed.

La Crosse.—Had some of it measuring seven and one-half inches in circumference, fell here. Crops yet unharvested suffered seriously. In La Crosse many windows were broken in stores and houses.

Racine.—Mayor Walter Goodland was secured at a mass meeting of the city for his action in refusing to call off the boxing exhibition staged here Friday night under protest of the Ministers' union. The pastor who talked charged that Mayor Goodland had violated a promise made before his election that no fights should be permitted in the city during his administration. Rev. Henry Clarke, Rev. Byron Hilder and Rev. Charles Timbache, prominent in the Ministers' union of Racine, were severe in their criticisms of the mayor, whom they claimed had "trodden under foot the law by permitting prize fights in Racine."

Appleton.—An unusual accident was witnessed by Fred W. Heilmann, George Pannan, Arnold Knapp and Appleton and William Wedemeyer of Milwaukee, while en route to a party of five girls occupying a motor launch on the New London cutoff at the New river. One of the party accidentally fell overboard into the water. In their haste to rescue the girl the other four lost their balance and all five were in the water when the Appleton party and others in boats nearby rushed to their rescue. None was drowned.

Fond du Lac.—The wrecked locomotive and cars of the Velox special were brought to the Soo shops at North Fond du Lac and were inspected by a big crowd of people. Seven pairs of trucks under a locomotive, the discovery of which was made in the light globe was broken in any of the cars and that none of the cars back of the baggage car suffered broken windows were some of the strange features noted by the railroad men. The mail car was demolished where it struck the ground was swept clean of pipes, etc.

Beaver Dam.—Emil J. Dehne of the firm of Dehne & Dehne, manufacturers of flour, cheese boxes, etc., also owners of the Hustford electric light plant of Hustford, committed suicide in Juneau. He purchased a revolver at a hardware store in Juneau after he had heard that the council had turned down his proposal to furnish light and power for that city, and shortly after fired a 32-caliber bullet into his right temple, dying almost instantly. He is survived by a wife and one child.

Sparta.—Hugh Gallagher, a private of B battery, Fifth artillery, was hit by a train, sustaining a fracture of the skull, a broken arm and both legs were severed above the knees. He died in a hospital here. He was found by some soldiers who were returning from town on horseback. He was then unconscious, but apparently alive. His remains were sent to Massachusetts where he has a sister living.

Baraboo.—Philip F. Cheek, a former insurance commissioner and a noted lawyer of Baraboo, is dead. He had been district and city attorney. He was one of the best known Grand Army men in the state and was a member of the Iron brigade. He was about seventy years old and was born in England. Mr. Cheek celebrated his golden wedding anniversary a short time ago.

Neenah.—A queer visitor rapped on the roof of the residence of Street Commissioner Stephen Zemlock. It was a nugget, apparently of flint, and undoubtedly formed a small part of a meteor, and is nearly two inches in length and one inch in diameter. It is striking and rolling down the roof that Mr. Zemlock went out and found it.

Fort Washington.—The injunction prohibiting the use of the new speed bars at state fair park in West Allis was so far from being successful that the city is permitted to use during fair week, September 25 was set for hearing arguments on the motion to vacate the injunction.

Green Bay.—William Light of Carlton, aged seventy-nine, and Mrs. Josephine Collopy of Green Bay, aged eighty, were married here. He has been married once, while this is her third matrimonial venture.

Wausau.—William Gaulke of the town of Maine was arrested here on a charge of forgery by Deputy United States Marshal William Appleby of Madison. It is alleged that he cashed a check for \$150.00 sent to him by mistake through the mails.

Madison.—The next meeting of the Association of City School Superintendents of the state will be held here on October 6-7. All superintendents are required by law to attend, their expenses to be borne by their respective boards.

Chippewa Falls.—Mrs. Maria Wilcox, aged seventy-eight, was fatally burned when she arose during a storm and picked up a kerosene lamp that was burning in her room and started to look after the house. The lamp and the lamp exploded, setting fire to her clothing.

Beloit.—Dr. R. W. Bosworth, Methodist pastor at Sun Prairie, for fifty years prominent in the Methodist church, will be retired at the coming conference and will make his home here.

Advertising Rates.—For display matter a rate of 10 cents per inch is charged. The minimum in the Tribune is 25 inches long, making a one column advertisement cost \$2.50 for one insertion. All local notices, cards of thanks, resolutions of respect, and all notices of a miscellaneous nature are charged at the rate of 5 cents per line per insertion. An advertisement for 10 insertions will be published at 50 cents per line.

We now have "publicly before the election"—all that we asked on this subject in the platform of 1908, and even more. But sentiment has grown until we are in a position to ask for still more. We should now have publicity as to expenditures of those organizations that nominate presidents. Why not find out who put up the money for nominations? And why not find out who recommends appointments? Why should an appointing office not be in the dark? Why not compel the president to open the record for inspection so that the public can know the power behind the throne? Why should the president appoint judges for life, and other officials for a limited term, without disclosing the information upon which his appointments are based. Let us have this publicity—and it should be before presidential nominations are made and before appointments are sent to the Senate. We should also have publicity as to the ownership of our big newspapers. Why should a paper's ownership be kept in the dark? The value of an opinion depends on the character and disinterestedness of the one expressing it. Let us have publicity as to newspaper ownership. We have had enough of newspaper methods in subsidized journalism. A little light would be helpful, and it ought to come before the next presidential election. A democratic congress ought to inaugurate this reform. And now that the publicity campaign is started it should be kept up until all elections and nominations are made public affairs and secrecy is driven from the administration of the government.—The Commenter

Towns Come in Strong for State Aid.

Although county clerks are not required by law to report until October 1st the amounts voted by the various towns and counties for state aid improvements, preliminary reports are already in from many of them. Information received from this and other sources would indicate that thirty-five counties will ask state aid in excess of their apportionment, thirty-two will ask for amounts less than their apportionment, and four counties have taken no action.

Those counties in which the towns have failed to vote any money, or enough money to exhaust the state aid available for the county, still have a chance to get state aid if the county board at a special meeting held on or before October 1st votes a county tax equal to two thirds of the cost of the desired road improvements.

The proceeds of the county tax, together with the state money, may be spent on the county system of progressive state highways at a point selected by the county board or its committee. Money voted by the towns, together with the county and state aid drawn by it, must be spent at points on the system selected by the people of the town or by the town board.

Final apportionment of the state money will be made before November 1st. Blanks on which to report to the State Highway Commission all amounts voted, have been sent to all county clerks.

Trespassing on Land of Another.

There has been considerable discussion relating to the state law in regard to hunting without permission on land of another and there seems to be considerable misunderstanding regarding the exact scope of the law. Section thirty-seven, which covers this matter, reads in full as follows: "Any person who shall enter into any growing or standing grain not his own, with fire arm or permit his dog to enter into any such grain, without the permission of the owner or occupant of the land on which such grain is situated or any person who shall, without permission of the owner, hunt or shoot on the premises of another enclosed by a fence and used as a pasture for stock, or shall hunt or shoot upon any other land of another after being notified not to hunt or shoot thereon, shall be punished by a fine of not less than five dollars nor more than ten dollars and in default of payment thereof, shall be imprisoned in the county jail not less than ten days nor more than thirty days; provided, that this section shall not limit or in any way affect civil liability on account of such trespass. Any owner or occupant of land may give the notice provided for in this section by maintaining sign boards, at least one foot square containing such notice upon at least every forty acres of the premises sought to be protected, in at least two conspicuous places, or by giving personal, written or verbal notice."

It is provided further that "taxable costs in any action brought by the owner of any wild and unenclosed lands against any person for trespass by hunting or fishing thereon, shall in no case exceed the damages awarded such owner for the actual injury caused by such trespass."

MAIL ORDER HOUSES PAY LAVISH SALARIES

There is practically no limit to the salary that the average mail order concern is willing to pay clever writers of advertisements, catalogs and letters. Men of marked ability along these lines can usually make their own terms. One hundred dollars a week is regarded as only a fair salary for a good mail order writer. Many make \$200 per week and some get over \$500 a week.

These facts were made public at a recent investigation wherein a well known catalog house was made defendant on the charge of fraudulent use of the United States mails. This concern had been telling the public how, by dealing direct with the consumer, they could sell at half price. The "explanation" was, that since they did not sell through dealers, their selling expense was immensely cut down. Then the question came up as to what their expense was in selling and it developed that they were spending huge amounts not only for paper, stationery, printing and advertising (a single mail order advertisement inserted once in one paper sometimes costs \$5,000), but for experts who are able to write "come on," as they call it, to bring in trade.

The up-shot of the investigation is, it shows clearly why a mail order house many miles away may sell goods under the nose of a local dealer. It isn't because mail order houses give better values, but because they hire the cleverest writer-salesmen that money can buy. No local retail dealer could afford to pay \$10,000 to \$25,000 a year for an advertising man. His business is not big enough. And, yet if he had the services of such an expert and gave the fellow permission to exaggerate all he pleased, no mail order house in the world could take business away from him.

The beautiful pictures and alluring descriptions found in mail order catalogs are no doubt regarded by their investigators as wonderful creations, but it is hard on the man or woman who relies on such misrepresentation and sends money away in the hope of getting bargains.

Not long ago a manufacturer who had been selling his product by mail came to the conclusion that he would change over to the dealer plan of selling and out the mail order order. "This he did. As a mail order concern he had been advertising his goods at 'one half the dealer's price.' But, strangely enough, he is now selling the identical, same product through dealers at the same price as he sold it by mail.

The manufacturer still makes his profit, yet there has been no advance over the original mail order price. How does that happen? Let some \$25,000 a year export mail order advertisement writer "explain" it. Things usually even themselves up in this world. What the mail order customer saves in avoiding dealer's profit he more than pays back in the form of huge salaries to clever word painters and artists in the employ of mail order concerns. The judgments man or woman buys his merchandise at home, because it is cheaper in the end and the many troubles, inconveniences, delays and aggravations connected with mail order buying are avoided.

Needless to say, our merchants here deserve our patronage. They extend to us every accommodation they can and stand ready to make good on every sale they make. They pay taxes here and are helping to build up our city and the surrounding territory. Let's keep our money at home where we can buy just as much, do it with less trouble and incidentally help our fellow townsmen.

PITTSVILLE.

Carl Kurtz, of Glen Ullin, N. D., was in the city the latter part of last week visiting with friends and relatives. Mr. Kurtz says that while there are places in the Dakotas, and especially South Dakota, where the crops are a total failure, the vicinity of Glen Ullin is in the best of condition and that crops are fine. It is his opinion that the Record is certainly boasting for the Wisconsin Valley, and while this is a good indication there are localities in the Dakotas that have not been benefited by it. Of course we expect Mr. Kurtz to stand up for his North Dakota—if he didn't people would think the loss of him for it.

P. W. Kahoe left Monday morning for Charles City, Iowa, called there by the information that his wife was very sick and it is expected a surgical operation will be necessary. Mrs. Kahoe left for Charles City in company with her niece last week for the Iowa town after a stage of illness and friends will trust that her condition will be better soon.

On Wednesday morning there was considerable excitement aroused when the fire bell gave the alarm for a fire. It was found that the summer kitchen of the M. L. Huthof's residence was on fire. It was soon extinguished with but little damage.

Mr. and Mrs. Frank Ziegler left Monday for Milwaukee where Mrs. Ziegler will be placed in one of the hospitals there to undergo an operation. Mr. Ziegler will stay there till she is able to return.

A cargo of Wisconsin pure bred corn is on the ocean on the way to German South Africa. The grain, for seedling purposes, was ordered of the Wisconsin Experiment association recently by Minister Kamman of the German Imperial consulate at Chicago and cost the purchaser \$8.50 a bushel. The varieties bought were the three famous pure-bred—No. 7 Silver King, No. 18 Golden Glow, and Clark's Yellow Dent. In competition with other varieties in the province these three brands of Wisconsin corn stood first.

NEKOOSA (From the Times)

On Tuesday evening, September 12, three young men from Grand Rapids—Messrs. Frank Natwick, Clarence Jackson and Ryland Boorman—visited our city to explain and interest the young people of Nekoosa in Christian Endeavor work, with their experiences and suggestions, in the Union church. Messrs. Natwick and Jackson also brought their violins, by request, and gave us two stirring and delightful selections, accompanied by Miss Jackson. Rev. Fred Staff also summed up the evening in a pointed and practical talk. The Nekoosa young people were much interested and are grateful for this instructive and helpful evening.

Irene, the twenty months old daughter of Mr. and Mrs. John Pelot, met with a very painful and serious accident Sunday that came near causing her the loss of the sight of one or both eyes. She was playing when she fell, striking her face and head on the sharp edges of a tin can. She fell with her forehead and face striking squarely on the sharp tip, the force of the fall cutting a very long and deep gash across her forehead, barely missing both eyes. Dr. Waters of Nekoosa and Dr. Aylward of Port Edwards were called and it required eight stitches to sew up the wound.

A. E. Gurdy, formerly in the barber business here and familiarly known as "Long John," now proprietor of a large hotel at the well known summer resort of Green Lake, Wis., accompanied by Mr. and Mrs. J. B. Baird, John R. Brook and M. Gradulier, all of Green Lake, came down Saturday and stayed until Tuesday, on a hunting and outing trip. They departed with their full quota of game—twenty-five chickens and twenty-five grouse. They were piloted to the hunting field by John Lawrence.

E. E. Youngchild, who succeeds F. X. Grode in the barber business, has now opened out in the old Grode stand, on East Main street.

Farmer Hurt by Train.

Marshfield Herald.—Frank Vespey, a farmer residing a half mile east of Vespey, was brought to the hospital in this city Monday night suffering from injuries received in a knock out blow he got that evening at Arpin given him by the Northwestern passenger train that arrives here at 11 p. m. With another companion Vespey attempted to cross the track just in advance of the oncoming passenger. He was struck and thrown some distance and only for the slow speed of the train would have been killed. He is considerably bruised about the chest but will recover. He is a married man.

Half a Million Acres.

In connection with the opening of the Blue Ridge and Rosebud Indian Reservations, South Dakota, Oct. 3 to 21, inclusive, the Chicago & North Western Railway is making extensive preparations to transport passengers to and from the registration points. The land subject to entry is located in Bennett and Mallett Counties, S. D., and will approximate 400,000 acres.

Applicants for these homesteads must register for this purpose some time between Oct. 3 and Oct. 21. Gregory, Dallas and Rapid City, S. D., have been designated as registration points. The drawing will take place at Gregory, beginning at 10 a. m., Oct. 24.

Winner, S. D., the present terminus of the Chicago & North Western Railway's extension to the Rosebud Reservation, is located practically on the border of the reservation, and 21 miles west of Dallas and 26 miles west of Gregory. Those registering at Gregory or Dallas may make the trip to Winner at slight additional expense, and these make a personal inspection of the lands which are to be opened for settlement. Local team and automobile service will be furnished by local parties from Winner, S. D., to all points on the reservation.

The registration and drawing for these lands will be on the same general plan as was made use of on former similar occasions.

The lands have been classified and appraised by the Government and a price of from 25 cents to \$1 per acre has been established, payment whereof is divided into annual installments covering a period of five years.

The land is of the same general character as adjoining lands now on the market at \$25 to \$35 per acre. Practically all the cereals will grow and successfully ripen throughout this territory, the grains including barley, oats, rye, speltz, flax and corn. The buffalo and grama grasses, famous for their value to stock raisers, grow here abundantly, and alfalfa, one of the best known feeders for live stock, horses, etc., can be successfully grown. The water supply, climate and general conditions are all favorable to the live stock industry. The climate is salubrious and healthful. The summers are warm and the nights cool and refreshing. The autumns are noted for their bright, warm days, which last from October to December. During the winter the snowfall is light. The entire region is well watered by several large rivers and their tributaries, and Government reports show a generous rainfall and favorable temperatures for the growing season.

The location is a highly desirable one, being within easy reach of the great markets of the West, including Omaha, Council Bluffs, Sioux City, Chicago, St. Paul and Minneapolis. The line of the Chicago & North Western has been constructed westward through the Rosebud lands that have been opened to the public use in the past and provides a direct route to all principal points.

Approximately half a million acres of this land are to be opened to the public, making this one of the largest Government openings in recent years, and it will be one of the last large tracts available.

ARPIN

Mr. and Mrs. Henry Roehrig, Mrs. R. Robinson and Miss Emily Sawville of Pittsville motored to Appleton Saturday in the former's auto and visited over Sunday with relatives returning home Monday.

Byron Whittingham and son Will returned home the 10th after a two weeks' sojourn in North Dakota and Froid, Mont. They report a very enjoyable trip.

Dr. Theobald of Cary, Ill., formerly of this place, has been calling on friends here recently.

Friends were sorry to learn of the death of John Smith, a prosperous farmer who resides east of town. Mr. Smith has been in poor health for several months and has been a long and patient sufferer. The funeral is expected to take place Wednesday morning at the new Catholic church at Vesper. The body will be interred in the new burying grounds. Mr. Smith has always been a kind friend and good neighbor and will be greatly missed by those who have known him so well. He leaves, to mourn his loss, his wife and seven children: Mrs. John Byrnes, Tom, Jack, Anna, Lizzie, Florence, and Frank, all of whom reside at home except Mrs. Byrnes who lives a little distance from home. The family have the sympathy of the whole community in their bereavement.

Mr. and Mrs. Bluet entertained at dinner Sunday the former's parents, Mr. and Mrs. Wm. Bluet of Donsman, Wis., Mr. and Mrs. Geo. Lewis and family, Mr. and Mrs. Walter Winebrenner of Auburn, and Miss Mary LaVigne of Grand Rapids.

Mr. and Mrs. Gus Manther are enjoying a visit with their daughter, Mrs. M. Crawford of Salt Lake City, Utah.

KELLNER

R. Timm and Miss Oelke, both of this place, were married at two o'clock last Saturday. Rev. A. Krascho performed the ceremony. The groom was attended by the Messrs. R. Miller and E. Oelke and the Misses Ella Timm and Millie Burmeister acted as bridesmaids.

Fred Heuke and family and Max Whitbrook and wife of your city spent Sunday at the Herman Rieckhoff home.

Rev. and Mrs. A. Krascho and John Krascho spent last week in Milwaukee attending the fair and visiting friends.

Henry Kruger is seriously ill with typhoid fever. His many friends hope for an early recovery.

There will be no services at the Lutheran church as Rev. A. Krascho will be in Nashkoro, having charge of the corner store laying service at that place.

A baby boy arrived at the Fred Grey home on the 11th of this month. Fred says that he is going to move to Wild Rose now and let the boy have charge of the section if he doesn't make a "hollar" about the work too often.

Martin Heike and Elsie Voight will be married this Wednesday at 11:30, Rev. A. Krascho officiating.

Mr. Bernhard and Mr. Schwandt will take possession of their farms which they recently purchased from Mrs. Allen and Withers, in the near future.

Fred Yetter, who recently sold his farm, is moving his goods to your city.

Want to be an Officer?
At the request of Senators LaFollette and Stephenson the state civil service commission will hold a state competitive examination of all candidates for appointment as cadets at West Point and Annapolis, on Saturday, December 2, 1911. The senators have urged that this matter be given wide and early publicity, and request high school principals to suggest to this commission names of boys who have graduated or who are about to graduate from a four year high school, likely to be interested in this examination.

Any young man who wishes to take the above examination should address the Civil Service Commission, Madison, Wis.

GOOD HEALTH
Is reflected in person who couple a careful, wholesome diet with the moderate use of an invigorating, healthful food beverage like

GRAND RAPIDS BEER
The ruddy good nature manifest in those who indulge in an occasional good glass of beer, like **Grand Rapids Beer**, is proverbial. They are good natured because they have gained strength, health and vigor from its use. In striking contrast are the pessimistic coffee or tea drinkers and the optimistic beer drinker.

Try our beer. It is the acme of healthful liquid refreshments.

The Automatic Sealing Burial Vault
MORE BEAUTIFUL THAN STONE OR STEEL—AS ENDURING AS THE AGES

Made of reinforced concrete, with a mineral glaze that makes it as impervious to moisture as glass. The Automatic seal cannot fail, and water can never enter under any conditions. The only vault that will protect casket perfectly forever.

Don't use the perishable wooden box which soon crushes under pressure, or jointed vaults, which cannot be made tight and soon fill with the earth.

ASK YOUR UNDERTAKER about the Automatic Sealing Burial Vault, and let him demonstrate the automatic seal, with model which he has. You'll be pleased with perfection of this vault, and surprised at its low cost. Should be used for every burial.

Warm Floors and Healthy Children Make Happy Homes

There is no better way for you to avoid worry and expense than by insuring your children's health.

Warm floors in the home, which is the children's play house in winter, are assured when using Cole's Original Hot Blast Heater.

The steel base and body construction allows the heat to be radiated to the floor keeping it warm during the coldest weather.

Cole's Original Hot Blast Heater

The Cleanest—Easiest to Care For

Burns Soft Coal, Lignite, Hard Coal, Crushed Coke, Wood and Cobs.

Users of coal must remember that the ordinary heater is a big care to operate. That its smoke and ashes entail dusting, curtain washing and carpet sweeping. Think then of the ease of operation and the cleanliness of Cole's Hot Blast.

Cole's Hot Blast has a guaranteed smoke-proof feed door—open the feed door and the current of air draws the smoke directly across the top of stove to the stove pipe—away from the opening. Contrast this simple, cleanly feed with the side door in an ordinary heater. The side door used on other stoves permits escape of dirty smoke, unpleasant gas and accumulated soot drops from it. If you overfill a side door stove, coal falls to the floor. And note this, you cannot make a side door heater air-tight—an everlasting advantage in favor of Cole's Hot Blast which is air-tight and guaranteed to remain so always.

No fires to build—the fire is never out in this remarkable heater from fall until taken down in the spring.

Better select one today—surely it is the heater you need—

Homesteaders in the west are glad to learn that an act passed by the last Congress grants them leaves of absence during the coming winter from most of the lands open to settlement, without impairing their chances of obtaining title to them. But the time of absence, dating from Aug. 19, 1911, to April 15, 1912, shall not be deducted from the full time of residence required by law.

That is, the title of the struggling settlers is postponed by so much time as they take away from residence and cultivation of the lands.

The Stevens Point Fair was spoiled to a certain extent this year by the prevalence of rain. There was said, however, to be a good attendance on Friday, when some good races were pulled off. Many of the fairgoers, the state were knocked out to a considerable extent by the rains.

The Schubert Symphony Club and Ladies Quartet, which gave a musical entertainment at Daly's Theatre on Wednesday evening under the auspices of the Federated Clubs, was listened to by a fair sized audience, altho it was not as largely attended as it should have been considering the merit of the organization. The entertainment was thoroughly appreciated by those in attendance.

Marshfield Herald.—Otto J. Leu, at present successfully engaged in dairy farming in the southern part of the county, was a caller at the Herald office on Saturday of last week. Mr. Leu was on his way home from Thorpe where he made an address before a Holstein breeders meeting, himself owning a fine herd of those cattle. In addition to the breeders meeting the farmers in that vicinity, on the same day made the occasion a sort of a fair, many of them bringing in samples of grain, corn, potatoes and apples raised on their respective places which Mr. Leu pronounced the best he ever saw. He was particularly surprised at a squash brought in by one of the farmers. It measured 36 inches in length and 48 inches in circumference.

Too Big for the Army.

A man by the name of Wren appeared before the recruiting officer of the army in Louisville, Ky., on September 6 and was turned down on account of the fact that his height, 6 feet 9 inches, made it impossible to accommodate him. He was physically perfect, weighing about 220 pounds, and the recruiting officer sought the special permission of the War department to enroll him. This, however, was refused, and the giant must give up his idea of becoming a soldier. It has been suggested that he would make a good drum major at the head of the band, but on account of the length of his legs there was question whether he could time his steps with the music intended for the usual sized soldier. The man was born in Kentucky and is 28 years old.

How is Your Title?

You and many another property holder in Wood County are resting under the impression that because you hold a warranty deed to your premises that you are secure in the possession of the same. Such, however, may prove not to be the case and to your sorrow and great financial loss some party with a better legal claim may dispossess you of your home or other real estate holdings, representing possibly the savings of a life time.

This may be the result of the careless drawing of deeds and mortgages or errors in copying the same, or because the party from whom you bought did not have a good title as he represented to have.

Learn how your title is by getting an Abstract of the Title which will show the complete history of the title from the Government ownership to the present date. If any errors exist they will be shown upon the Abstract and you can take steps to have the same perfected before someone comes in and disputes your title.

Now also is the time to find out if errors exist so that deeds may possibly be obtained while possible claimants are still alive and without having to deal with heirs which is always expensive.

It costs money to talk to you this way. There is much more to be said to your benefit. Come in and talk it over.

Caution
FACTS, plain facts, are often hard to tell without hurting somebody's feelings. But, as agents for Garland Stoves and Ranges, we have no desire to do that—no quarrel with any Mail Order Stove Concern or Catalog House.

It is stove buyers for whom we have facts worth considering—practical, profitable facts whenever you are thinking of buying any kind of a stove or range.

Buy Where You Can See What You Get—At HOME

We do not say this selfishly. We only ask that you investigate Garland before you buy. That's all. We are glad to rest the matter on your judgment then—when you see our full line of latest style Garlands for every purpose to suit your needs.

Quality Service
For over 40 years Garland stoves and ranges have had the greatest sale of any stoves and ranges in the world—in over 4,000,000 homes. Garland Quality costs you no more than stoves and ranges of inferior grade. So why not secure The World's Best? Permanent economy in buying any stove or range should be considered not only from its first cost, but also from the point of view of durability, materials and workmanship. Garlands are the world's best for baking, cooking or heating and do each with the least waste of fuel.

We now have "publicity before the election"—all that we asked on this subject in the platform of 1908, and even more. But southern law grown under us in a position to ask for still more. We should now have publicity as to expenditures of these organizations that nominate presidents. Why not find out who put up the money for nominations? And why not find out who recommends appointments? Why should an appointing office be in the dark? Why not compel the president to open the record for inspection so that the public can know the power behind the throne? Why should the president appoint judges for life, and other officials for a limited term, without disclosing the information upon which his appointments are based. Let us have this publicity and let it be before presidential nominations are made and before appointments are sent to the Senate. We should also have publicity as to the ownership of our big newspapers. Why should a paper's ownership be kept in the dark? The value of an opinion depends on the character and disinterestedness of the one expressing it. Let us have publicity as to newspaper ownership. We have had enough of assassination methods in subversive journalism. A little light would be helpful, and it ought to come before the next presidential election. A democratic congress ought to inaugurate the reform. And now that the publicity campaign is started it should be kept up until all election and nomination are made public affairs and secrecy is driven from the administration of the government.—The Contributor

Towns Come in Strong for State Aid.

Although county clerks are not required by law to report until October 1st the amounts voted by the various towns and counties for state aid improvements, preliminary reports are already in from many of them. Information received from this and other sources would indicate that thirty-five counties will ask state aid in excess of their appropriation, thirty-two will ask for amounts less than their appropriation, and four counties have taken no action.

Those counties in which the towns have failed to vote any money, or enough money to exhaust the state aid available for the county, still have a chance to get state aid if the county board at a special meeting held on or before October 1st votes a county tax equal to two thirds of the cost of the desired road improvements.

The proceeds of the county tax, together with the state money, may be spent on the county system of prospective state highways at a point selected by the county board or its committee. Money voted by the towns, together with the county and state aid drawn by it, must be spent at points on the system selected by the people of the town or by the town board.

Final apportionment of the state money will be made before November 1st. Blanks on which to report to the State Highway Commission all amounts voted, have been sent to all county clerks.

Trespassing on Land of Another.

There has been considerable discussion relating to the state law in regard to hunting without permission on land of another and there seems to be considerable misunderstanding regarding the exact scope of the law. Section thirty-seven, which covers this matter, reads in full as follows:

"Any person who shall enter into any growing or standing grain not his own, with fire arms or permit his dog to enter into any such grain, without the permission of the owner, hunt or shoot on the premises of another enclosed by a fence and used as a pasture for stock, or shall hunt or shoot upon any other land of another after being notified not to hunt or shoot thereon, shall be punished by a fine of not less than five dollars nor more than ten dollars and in default of payment thereof, shall be imprisoned in the county jail not less than ten days nor more than thirty days; provided, that this section shall not limit or in any way affect civil liability on account of such trespass. Any owner or occupant of land may give the notice provided for in this section by maintaining sign boards, at least one foot square containing such notice upon at least every forty acres of the premises sought to be protected, in a least two conspicuous places, or by giving personal, written or verbal notice."

It is provided further that "taxable coasts in any action brought by the owner of any wild and uninclosed lands against any person for trespass by hunting or fishing thereon, shall in no case exceed the damages awarded such owner for the actual injury caused by such trespass."

MAIL ORDER HOUSES PAY LAVISH SALARIES

There is practically no limit to the salary that the average mail order concern is willing to pay clever writers of advertisements, catalogues and letters. Most of marked ability along these lines can usually name their own terms. One hundred dollars a week is regarded as only a fair salary for a good mail order writer. Many make \$200 per week and some get over \$500 a week.

These facts were made public at a recent investigation wherein a well known catalog house was made known on the charge of fraudulent use of the United States mails. This concern had been telling the public how, by dealing direct with the consumer, they could sell at half price. The "explanation" was, that since they did not sell through dealers, their selling expense was immensely cut down. Then the question came up as to what their expense was in selling and it developed that they were spending huge amounts not only for paper, stationery, printing and advertising (in single mail order advertisements inserted once in one paper sometimes costs \$5,000), but for experts who are able to write "come on," as they call it, to bring in trade.

The upshot of the investigation is, it shows clearly why a mail order house many miles away may sell goods under the name of a local dealer. It isn't because mail order houses give better values, but because they hire the cleverest writers—men that money can buy. No local retail dealer could afford to pay \$10,000 to \$25,000 a year for an advertising man. His business is not big enough.

And, yet if he had the services of such an expert and gave the fellow permission to exaggerate all he pleased, no mail order house in the world could take business away from him.

The beautiful pictures and alluring descriptions found in mail order catalogues no doubt regarded by their investigators as wonderful creations, but it is hard on the man or woman who takes on such misrepresentation and sends money away in the hope of getting bargains.

Not long ago a manufacturer who had been selling his product by mail came to the conclusion that his plan of selling and out on the mail order deal. This he did. As a mail order concern he had been advertising his goods at "one half the dealer's price."

But, strangely enough, he is now selling the identical same product through dealers at the same price as he sold it by mail. The manufacturer still makes his profit, yet there has been no advance over the original mail order price.

How does that happen? For some \$25,000 a year expert mail order advertisement writer "explain" it. Things usually even themselves up in this world. What the mail order advertiser does in avoiding dealer's profit he more than pays back in the form of huge salaries to clever word painters and artists in the employment of mail order concerns. The judgments men or women buy his merchandise at home, because it is cheaper in the end and the many troubles, inconveniences, delays and aggravations connected with mail order buying are avoided.

Needless to say, our merchants here deserve our patronage. They extend to us every accommodation they can and stand ready to make good on every sale they make. They pay taxes here and are helping to build up our city and the surrounding territory. Let's keep our money at home where we can buy just as much, do it with less trouble and incidentally help our fellow townsmen.

PITTSVILLE.

Carl Kertz, of Glen Ullin, N. D., was in the city the latter part of last week visiting with friends and relatives. Mr. Kertz says that while there are places in the Dakotas, and especially South Dakota, where the crops are a total failure, the vicinity of Glen Ullin is in the best of condition and that crops are fine. It is his opinion that the Record is certainly boasting for the Wisconsin Valley, and while this is a good indication there are localities in the Dakotas that have not been benefited by it. Of course we expect Mr. Kertz to stand up for his North Dakota—if he didn't people would think the loss of him for it.

P. W. Kelce left Monday morning for Charles City, Iowa, called there by the information that his wife was very sick and it is expected a surgical operation will be necessary. Mrs. Kelce left for Charles City in company with her niece last week for the Iowa town after a siege of illness and friends will trust that her condition will be better soon.

On Wednesday morning there was considerable excitement aroused when the fire bell gave the alarm for a fire. It was found that the summer kitchen of the M. L. Huthof's residence was on fire. It was soon extinguished with but little damage.

Mr. and Mrs. Frank Ziegler left Monday for Milwaukee where Mrs. Ziegler will be placed in one of the hospitals there to undergo an operation. Mr. Ziegler will stay there till she is able to return.

Shorff John Schmidt and party of Grand Rapids, were piloted about by Al Smith the first day of hunting.

A cargo of Wisconsin pure bred corn is on the ocean on the way to (Cienfuegos) South Africa. The grain, for seedling purposes, was ordered of the Wisconsin Experiment association recently by Minister Kammann of the German Imperial consulate at Chicago and cost the purchaser \$3.50 a bushel. The varieties bought were the three famous pure-breds—No. 7 Silver King, No. 12 Golden Glow, and Clark's Yellow Dent. In competition with other varieties in the provinces these three brands of Wisconsin corn stood first.

NEKOOSA

On Tuesday evening, September 12, three young men from Grand Rapids—Messrs. Frank Natwick, Clarence Jackson and Ryland Borkman—visited our city to explain and interest the young people of Nekoosa in Christian Endeavor work, with their experiences and suggestions, in the Union church. Messrs. Natwick and Jackson also brought their violin, by request, and gave us two stirring and delightful solos, accompanied by Miss Jackson. Rev. Fred Staff also joined up the evening in a pointed and practical talk. The Nekoosa young people were much interested and are grateful for this instructive and helpful evening.

Irene, the twenty month old daughter of Mr. and Mrs. John Poler, met with a very painful and serious accident Sunday that came near causing her the loss of the right eye or both eyes. She was playing when she fell, striking her face and head on the sharp edge of a tin can. She fell with her forehead and face striking squarely on the sharp lip, the force of the fall cutting a very long and deep gash across her forehead, barely missing both eyes. Dr. Waters of Nekoosa and Dr. Aylward of Port Edwards were called and it required eight stitches to sew up the wound.

A. E. Gurdy, formerly in the harbor business here and familiarly known as "Long John," now proprietor of a large hotel at the well known summer resort of Green Lake, Wis., accompanied by Mr. and Mrs. J. B. Baird, John R. Brooks and M. Grudiner, all of Green Lake, came down Saturday and stayed until Tuesday, on a hunting and outing trip. They departed with their full quota of game—twenty-five chickens and twenty-five grouse. They were piloted to the hunting field by John Lawrence.

K. E. Youngblood, who succeeds P. X. Grady in the harbor business, has now opened out in the old (Grady) stand, on East Main street.

Farmer Hurt by Train.

Marshall Herald:—Frank Yeskey, a farmer residing a half mile east of Vesper, was brought to the hospital in this city Monday night suffering from injuries received in a knock out blow he got that evening at Arpin given him by the Northwestern passenger train that arrives here at 11 p. m. With another companion Yeskey attempted to cross the track just in advance of the oncoming passenger. He was struck and thrown some distance and only for the slow speed of the train would have been killed. He is considerably bruised about the chest but will recover. He is a married man.

SIGEL.

Mr. and Mrs. James Poler were Grand Rapids shoppers on Saturday. George Gombis is making some good improvements on his farm.

James Poler expects to commence the erection of a new home, soon which will be three, two-story high. Elmer Poler is building a basement for a site for Frank Kabisak.

VESPER.

John Hicks, who has been with Wm. Boehman the past summer, was in Vesper Sunday looking up a house.

Mr. Searls has sold the "Hotel Monogram" to Mr. McKenzie of Sherry. Mr. McKenzie will take charge of the place the first of the month. Mr. Searls expects to move to Pittsville.

P. McVicar and family returned home Monday from a trip to the state fair.

Mrs. Herbert Jones returned home Saturday from a visit to Kentucky. Her sister Lucille Smith, came with her to make a definite stay.

Mrs. Whitcomb was in Chicago last week.

The party given by Oscar Bonn and James Moore Saturday evening was well attended and all had a good time.

Half a Million Acres.

In connection with the opening of the Pine Ridge and Rosebud Indian Reservations, South Dakota, Oct. 2 to 21, inclusive, the Ojibwa & North Western Railway is making extensive preparations to transport passengers to and from the registration points. The land subject to entry is located in Bennett and Mellette Counties, S. D., and will approximate 450,000 acres.

Applicants for these homesteads must register for this purpose some time between Oct. 2 and Oct. 21. Gregory, Dakota and Rapid City, S. D., have been designated as registration points. The drawing will take place at Gregory, beginning at 10 a. m., Oct. 21.

Winner, S. D., the present terminus of the Chicago & North Western Railway's extension to the Rosebud Reservation, is located practically on the border of the reservation, and 21 miles west of Dallas and 26 miles west of Gregory. Those registering at Gregory or Dallas may make the trip to Winner at slight additional expense, and thus make a personal inspection of the lands which are to be opened for settlement. Local town and automobile service will be furnished by local parties from Winner, S. D., to all points on the reservation.

The registration and drawing for these lands will be on the same general plan as was made use of on former similar occasions.

The lands have been classified and appraised by the Government and a price of from 25 cents to \$5 per acre has been established, payment whereof is divided into annual installments covering a period of five years.

The land is of the same general character as adjoining lands now on the market at \$25 to \$50 per acre.

Practically all the cereals will grow and successfully ripen throughout this territory, the grains included being barley, oats, rye, speltz, flax and corn.

The buffalo and grama grasses, famous for their value to stock raisers, grow here abundantly, and alfalfa, one of the best known feeders for live stock, horses, etc., can be successfully grown. The water supply, climate and general conditions are all favorable to the live stock industry. The climate is salubrious and healthful. The summers are warm and the nights cool and refreshing. The autumns are noted for their bright, warm days, which last from October to December. During the winter the snowfall is light. The entire region is well watered by several large rivers and their tributaries, and Government reports show a generous rainfall and favorable temperatures for the growing season.

The location is a highly desirable one, being within easy reach of the great markets of the West, including Omaha, Council Bluffs, Sioux City, Chicago, St. Paul and Minneapolis. The line of the Chicago & North Western has been constructed westward through the Rosebud lands that have been opened to the public in the past and provides a direct route to all principal points.

Approximately half a million acres of this land are to be opened to the public, making this one of the largest Government openings in recent years, and it will be one of the last large tracts available.

ARPIN.

Mr. and Mrs. Henry Roehrig, Mrs. R. Robinson and Miss Emily Saville of Pittsville motored to Appleton Saturday in the former's auto and visited over Sunday with relatives returning home Monday.

Hyron Whittingham and son Will returned home the 10th after a two weeks' sojourn in North Dakota and Fred, Mount. They report a very enjoyable trip.

Dr. Theobald of Cary, Ill., formerly of this place, has been calling on friends here recently.

Friends were sorry to learn of the death of John Smith, a prosperous farmer who resides east of town. Mr. Smith has been in poor health for several months and has been a long and patient sufferer. The funeral is expected to take place Wednesday morning at the new Catholic church at Vesper. The body will be interred in the new burying grounds. Mr. Smith has always been a kind friend and good neighbor and will be greatly missed by those who have known him so well. He leaves, to mourn his loss, his wife and seven children, Mrs. John Byrnes, Tom, Jack, Anna, Lizzie, Florence and Frank, all of whom reside at home except Mrs. Byrnes who lives a little distance from home. The family have the sympathy of the whole community in their bereavement.

Mr. and Mrs. Bluet entertained at dinner Sunday the former's parents, Mr. and Mrs. Wm. Bluet of Donnan, Wis., Mr. and Mrs. Geo. Lewis and family, Mr. and Mrs. Walter Winebrenner of Auburndale and Miss Mary LaVigne of Grand Rapids.

Mr. and Mrs. Gus Mauther are enjoying a visit with their daughter, Mrs. M. Crawford of Salt Lake City, Utah.

KELLNER.

R. Timm and Miss Oelke, both of this place, were married at two o'clock last Saturday. Rev. A. Krasche performed the ceremony. The groom was attended by the Messrs. R. Miller and E. Oelke and the Misses Ella Timm and Millie Burmeister acted as bridesmaids.

Prof. Henke and family and Max Whitrock and wife of your city spent Sunday at the Hermann Rickhoff home. Rev. and Mrs. A. Krasche and John Krasche spent last week in Milwaukee attending the fair and visiting friends.

Henry Kruger is seriously ill with typhoid fever. His many friends hope for an early recovery.

There will be no services at the Lutheran church as Rev. A. Krasche will be in Neokoma, having charge of the corner stone laying services at that place.

A baby boy arrived at the Fred Grey home on the 11th of this month. Fred says that he is going to move to Wild Rose now and let the boy have charge of the section if he doesn't make a "holler" about the work too often.

Martin Holke and Elsie Veight will be married this Wednesday at 11:30, Rev. A. Krasche officiating. Mr. Borowick and Mr. Schwandt will take possession of their farms which they recently purchased from Mrs. Allen and Withers, in the near future.

Fred Yetter, who recently sold his farm, is moving his goods to your city.

Want to be an Officer?
At the request of Senators LaFollette and Stephenson the state civil service commission will hold a state competitive examination of all candidates, for appointment as cadets at West Point and Annapolis, on Saturday, December 2, 1911. The senators have urged that this matter be given wide and early publicity, and request high school principals to suggest to this commission names of boys who have graduated or who are about to graduate from a four year high school, likely to be interested in this examination.

Any young man who wishes to take the above examination should address the Civil Service Commission, Madison, Wis.

WHERE WIGGINS FELL DOWN

Employer Now Realizes That There Are Such Things as Grandmothers of Office Boys.

Outside his own cleverness there is nothing that so delights Mr. Wiggins as a game of baseball, and when he gets a chance to exploit the two at the same time, he may be said to be the happiest man in the world. Hence it was that the other day, when little red-headed Willie Mulligan, his office boy, came sniffling into his presence to ask for the afternoon off that he might attend his grandmother's funeral, Wiggins deemed it a mastery stroke to answer:

"Why, certainly, Willie. What's more, my boy, if you'll wait for me I'll go with you."

"All right, sir," sniffed Willie, as he returned to his desk and waited patiently.

And lo and behold, poor little Willie had told the truth, and when he and Wiggins started out together, the latter not only lost one of the best games of the season, but had to attend the obsequies of an old lady in whom he had no interest whatever.

Dust and Tuberculosis.

As a result of the dangers from consumption to those exposed to various forms of dust, and at the request of the National Association for the Study and Prevention of Tuberculosis, the United States government has recently appointed a commission to work in cooperation with state authorities in making an investigation into the conditions of the metal mining industries in the United States, with special reference to diseases of the lungs. The work of the commission engaged in this special task will follow lines somewhat similar to those worked out by the Royal Commission of Australia, whose report was recently received in this country.

Mrs. Browning.

Appropos of the jubilee of the death of Mrs. Browning, it is not generally known that the event occasioned one of the tenderest things her husband ever wrote. He tended her alone the night before she died, and wrote of her passing in a letter of infinite pathos addressed to their mutual friend, Mrs. Blagden: "Then came what my heart will keep till I see her again, and longer—what most perfect expression of her love to me within my knowledge of her. Always smiling and with a face like a girl's; and in a few minutes she died in my arms, her head on my cheek. . . . There was no lingering or acute pain, nor consciousness of separation. God took her to himself as you would lift a sleeping child from a dark, uneasy bed into your arms and the light."

APE DISLIKES GARB

Simian Protests Against Wearing Guard's Uniform.

"Keeper Baldy" Begins to Dabble in Tree as Big Crowd Follows and Cheers—Balked at Anacanda and Pythons.

New York.—Keeper Baldy is the smartest ape in the zoological gardens in Bronx park. This intelligent simian appeared in the regulation keeper's uniform—cap, blue suit, white collar and shoes—the only departure being a large red necktie, which flowed below his chin. And everything fitted the ape, for his suit was made to order by a well-known clothing house on the same model used for the regular attendants in the park. A tailor made a special trip to the park to take his measure, and the only trouble Baldy caused was through his desire to investigate the time measure.

Baldy did not balk when Engelholm, his keeper, and Charles Snyder, who is in charge during Mr. Dillman's absence, were putting on the "glad rags"; that is, he did not protest until Snyder tried to put on his shoes. As fast as one was slipped on the same unfashionable other and sent it sailing through the air, to the detriment of numerous glass jars and window panes. He pulled back again when the white collar was adjusted about his neck.

When all was ready for Baldy to be escorted from his room in the private house one last touch was given to his toilet to make him a swell. His cap, bearing the gold letters "N. Y. Zoological Society," was set jauntily on one side of his head, and then Snyder and Engelholm essayed into the open with the new keeper. Instantly a crowd gathered, and they had fully about the grounds while he was being introduced to the other inmates. It was the first time in the history of the zoo that an inmate had ever paid his respects to his neighbors.

All went well until Baldy became frightened at the big anacanda and the regal pythons in the reptile house. He recoiled and pulled so hard that he fell off and his collar worked itself up his eye. He did not like alligators, either, and was shortly taken out of the house. Then he became possessed of seven devils of his mischievousness, and with a sudden tug he escaped from the two keepers, hopped on to a fence and the next minute had grabbed the lowest limb of a small tree and swung himself up to it. From his perch he grimacingly surveyed the crowd below.

All the cooing of the keepers failed to make the ape come down. They would be torn to pieces, Baldy told his hat and examined it closely. He liked the gold lettering on it. Then he gave it an awful bang on the tree limb, and the keepers expected to see his crown drop out. The large crowd roared with delight. Horrified Baldy suddenly felt the desire to do one of his giant swings on the tree limb.

"Good-by, cont," said Engelholm. "Good-by, trousers," said Snyder. Baldy moved one way and then another, kicked against the tree with his new shoes and did such fantastic stunts that the clothes were strained to the utmost. He unwittingly let one leg hang down. Snyder grabbed it, and then Baldy came down with the tug. He was brushed off, his suit was examined to see if it had been torn and he was led around to other cages. He was captured none too soon, for he was about to begin snorting.

Leaving the ape in the hands of the inmates of the zoo. He pulled the tail of an anacanda, scolded in piercing howls as the bears as they lined up to have a look at the unusual keeper.

NEW YORK.—Sheik Hassan Ben Ali, an agent of the government of Morocco, reached this city the other day on the liner Olympia. He has a couple of picturesque attendants with him and was himself habited in the garb of the desert and was met at the pier by a representative of the Currier aeroplane interests. For the sheik came here to purchase two of the machines. The Arab is somewhat reticent regarding the manner in which his government proposes to use the airplanes, but admits that, for scouting purposes, in a level country like Morocco, they would be found superior to the horse.

So farewell, my Arab steed, and finally was led back to the monkey house and had a chance to see his fellow inmates.

There was not a monkey, large or small, that did not come up to the bars as Baldy paraded up and down outside.

"They're jealous," said Snyder. Mimi, one of Baldy's best friends in the monkey house, and who dines with him daily, showed fine scorn for the ape in his clothes. Baldy called to her from outside and she answered back. Dr. Gardner should have been there to interpret it. Prod Engelholm said that in her vernacular Mimi was saying:

"You're a fine looking mutt! What?"

A few minutes later the ape was relieved of his keeper's uniform, and was tickled to get rid of it.

HONEY SNAKE CLIMBS TREE

Pennsylvania State Zoologist Believes Story of Sweet-Toothed Reptile—Cases on Record.

Harrisburg, Pa.—Prof. H. A. Surface, state economic zoologist, is much interested in a story that reached him from Kennersdell, Venango county, to the effect that three men in cutting down a big tree discovered in opening it that a big black snake had invaded the bees' nest and had devoured almost all the honey. The bee hole was 40 feet from the ground, and the men feared that the snake, attracted by the honey, had climbed the tree, had its fangs, and when discovered by the bees they set upon him to drive him away, and literally covered the snake when found.

Professor Surface was asked if it were possible for a black snake to climb a tree to that height and if it was ever known to eat honey.

"Yes," said Professor Surface, "I can fully believe that story, for I believe that it is possible that a black snake could climb a tree. Furthermore, if there was a bees' nest in that tree the snake could get into the bee hole and eat the honey. I don't believe, however, that it would eat all the honey, for it would be cunning enough to know that by doing so it would drive the bees away. As to this particular snake being covered with bees I think they were wreaking their vengeance on it by trying to sting it to death, which is pretty difficult, for a blacksnake's hide is pretty tough. I have known

SPECIAL DIET FOR PUPILS

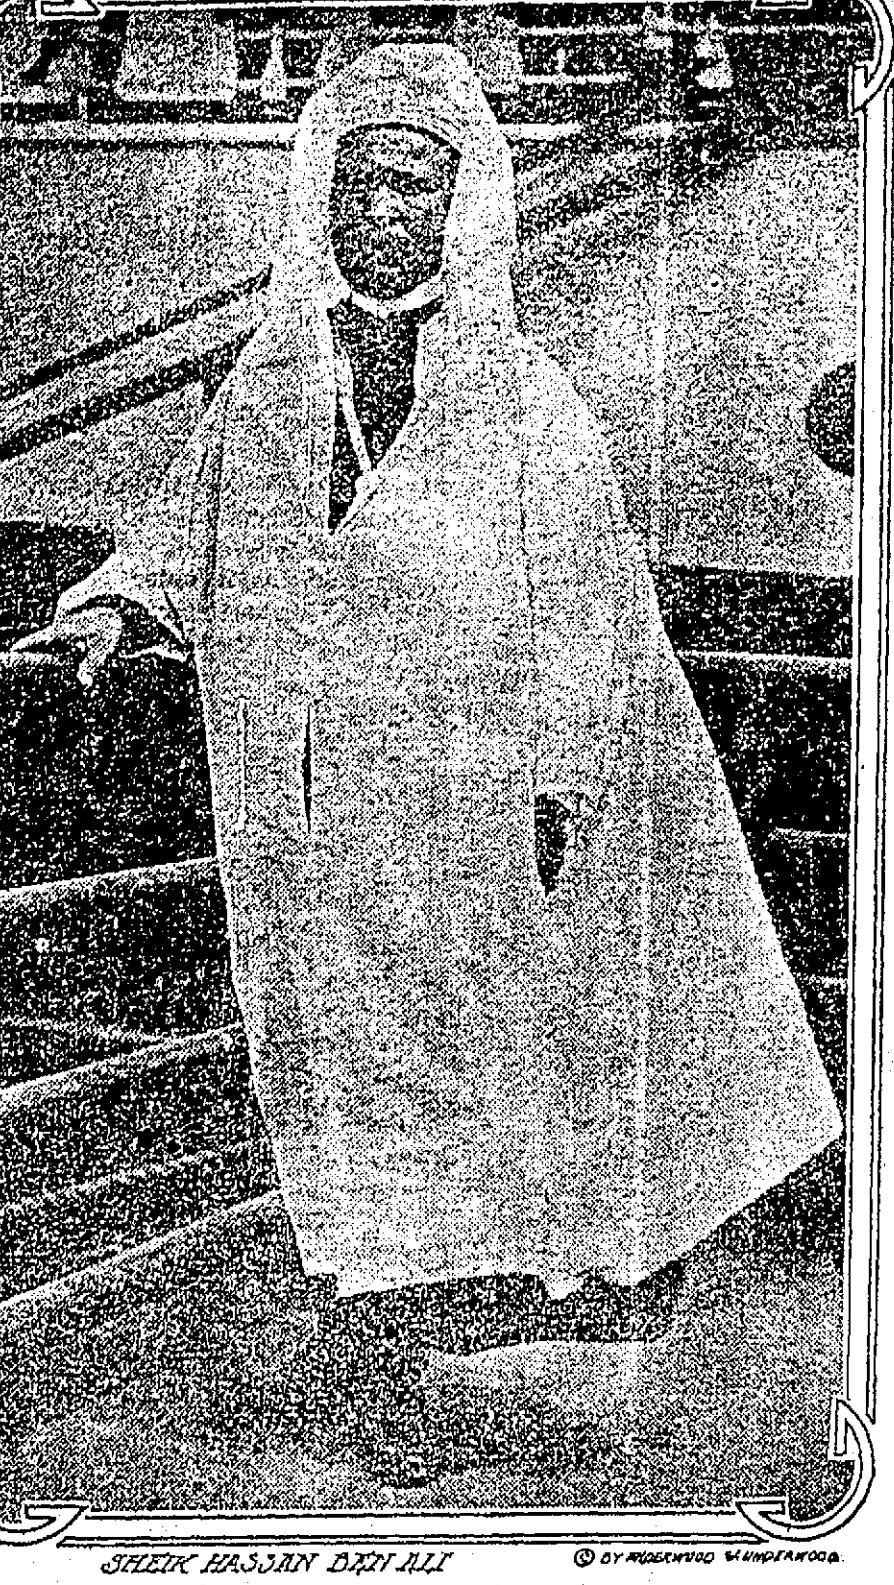

Miss Darracott, Teacher of Ungraded School at Indianapolis, Observes Novel Experiment.

Indianapolis, Ind.—Miss Frances Darracott, a teacher in the ungraded school for backward children, a special school conducted by the Indianapolis board of school commissioners, is at the University of Pennsylvania, Philadelphia, observing an interesting experiment in child training.

The experiment, which is conducted by the department of psychology of the university and consists of a class of fifteen backward children, who are being taught by three expert teachers. In addition to regular school subjects the children are receiving instruction in gymnastics, swimming, personal hygiene and water color painting. The girls also being taught sewing and domestic science.

The blood of the children was tested when the class was opened. The children are also receiving a special diet. The class is being superintended by Miss Elizabeth Farrell, Mrs. Margaret Pfeiffer and Miss Elizabeth Walsh.

MILL HAND AS A MILLINER

London Laborer Is Marvel at Making Beautiful Creations for Women—His Proud Moment.

London.—Two mill hand who is a milliner and blousmaker in his spare time has just come to light at Preston. His name is John Jackson, and so successful has his millinery been that he now wishes to give up weaving for it. He has many orders, coming from as far as Canada.

At his home in Hammond street, Preston, where he lives with his mother and sisters, Jackson said that his first millinery success was at a local bazar.

"My heart is in making and doing up smart hats and blouses," he said, "and I was delighted when I won a prize for hat trimming at that bazar."

"My proudest moment was when two bonnets and four hats of my own trimming were worn at the wedding of one of my sisters."

"I buy my own materials, flowers, ribbons, feathers, aprons, leavers, etc., and I can usually estimate the cost of trimming a hat to a farthing for a customer. I study milliners' windows for ideas. I just see what the latest fashions are and copy—or try to improve them."

INDIAN RENEWS OLD QUEST

Washington Rancher Will Again Start on Search for Daughter He Lost Over Six Years Ago.

Husum, Wash.—To again search for the body of his lost child in the wilds of the Cascade mountains, 25 miles northwest of here, is the intention of Johnny Cayuse, an Indian rancher living four miles northwest of Husum.

Johnny reluctantly told the story of the sudden disappearance of his daughter, Katie, six years ago, while he with his family were camped near the cave region west of Trout lake, during the buckcherry picking season. Nearly a thousand Indians gathered in that region every year to pick berries and indulge in amusements.

It was after one of these festive occasions in August that the daughter of Johnny disappeared as if swallowed by the earth. Parties searched for weeks for the lost, but no trace of her could be found. The supposition was that the girl had been killed by some wild animal and had fallen into one of the caves. Another Indian superstition was that the girl was lured by a monster of the lake to its watery home.

Another Flash Story.

Rhineland, Wis.—D. Satcher, of St. Charles, Minn., who is spending his vacation at Tomahawk Lake, caught a 22-pound muskellunge in an unusual manner. He had hooked the big fish, and, being unable to haul it into the boat, shot at it. The bullet cut the line in two. Not desiring to lose the giant fish, Satcher jumped into the water. Diving, he caught the line and dragged the "muskie" to shore in spite of its struggles.

BIG HOTEL OF 1,200 ROOMS

Huge Building, Whose Patrons May All Get Cool Whiff of Breeze Is Projected in New York City.

New York.—Few days are allowed to pass without the announcement of some feat of construction proposed for this city. Recently plans were made public for an enormous commercial building to replace Madison Square garden. Now it is announced that a monster hotel is to be erected on Seventh avenue in a section heretofore given over chiefly to old clothes dealers and other shops of queer or not questionable traffic.

The new hotel of skyscraper height is to have 24 stories and 1,200 rooms and will be erected in site by only two or three hotel buildings in the world. The peculiar feature of the new structure, however, is that all the rooms are to have a southern exposure, which is the only one that inures a cool summer breeze in New York. This will be accomplished by having the building divided by several

NOTES From MEADOWBROOK FARM

Get a band separator.
Don't forget the road drag.
Aren't well painted buildings a good sign?
It is unwise and wasteful to stuff a horse with hay.
Salt regularly twice a week is better than once.
Just as soon as the cream is separated is should be cooled.
The potatoes can be greatly improved by selecting the seed.
Drench the ground around the tea roses, but do not spray the bush.
No not neglect to spray the orchard trees and berry bushes this year.

The average production of alfalfa has been four tons of hay per acre.
Disease lurks in a neglected still barrel. Scrub and scald it every week.
Seed onions should now have produced plants big enough for bunch onions.
Bloody milk or that from a sick cow should never be mixed with wholesome milk.

As chickens grow, diminish the number of meals as well as the variety of food.
It is fatal to some plants to fertilize them with rich manures when the ground is very dry.
It is well to have a trough in the hoghouse in which is kept wood ashes, salt and coppers.

If the spring pigs are doing well hold them steady until fall and then push them for the market.
Some cows are such persistent milkers that it is next to impossible to dry them up, even for a short time.
It requires the work of experienced grover of Ginseng to germinate the seed with any degree of success.

A hog needs all his time to make pork and should not be expected to spend any moments fighting lice.
It should be remembered that the milk cannot be increased in solids and fat by the feeding of rich food.
The individuality of each horse should be studied, and the feeds supplied to meet individual requirements.

You will appreciate the difference between low-headed and high-headed trees when you are picking the crop.
An average of between one and two per cent. of all hogs slaughtered in the United States are infected with trichina.
In order to produce desirable flavor it is very essential that the milk and cream be handled under sanitary conditions.

Free range for hogs does not mean that they should be allowed to run in the highways and through the neighbors' fences.
It often pays to grade strawberries very carefully. A customer pleased and satisfied means a steady market for produce.
Anybody can raise an ordinary horse and sell it for an ordinary price. It takes blood and feed and care to beat the average.

Cabbage and cauliflower will grow better if frequently cultivated. Tie the leaves about the cauliflower heads to keep them white.
Each cow's udder should be thoroughly cleaned before milking and the hands of the milker should be absolutely clean and dry.
At no time is the development of the pigs so easily influenced as while they are depending on the sow's milk—the first month of life.

There is no trouble about working the brood mare on the farm, if she is the right kind of a mare and is handled by the right sort of man.
Hogs require attention, regardless of condition, age or sex, but the management of the brood sow is the surest test of the breeder's skill.
Milk should find its way into the chicken's ration much more generally, and if a cow is kept for the purpose of supplying it, it will be found one of the cheapest foods.

To introduce fifth into the cream is to introduce not only the bad flavors which fifth contains, but also germs which will tend to develop some kind of a bad flavor in the cream.
An acre of good corn will furnish fifty pounds of silage per day to a cow for 600 days, and an acre of alfalfa will furnish sixteen pounds of hay per day to a cow for 500 days. This makes a good ration for a cow producing 22 pounds of milk per day.

There are many farmers and stockmen who find quick grass, Canada chisties, dodder, and similar weeds pests established on their premises who cannot account for their presence except they come from the seedman.
Although lime applied as a top dressing on grass land is often beneficial, it proves most effective in correcting most of the faults of a collapsed lime. It can be applied to the plowed surface and thoroughly mixed with the soil.

It is a mistake to think that one may cease reading his dairy paper simply because it is "warm" weather and the crop on the farm occupies the time. The farmer has an opportunity to keep up with the lines of thought suggested by the best authorities.

The silo is not an experiment.
Charcoal is excellent for pigs.
Take good care of what pigs you have.
If short of fall feed, sow rape or turnips.
Collar boils are caused by ill-fitting collars.
The use of silage does not breed tuberculosis.
One way to improve land rapidly is to pasture hogs upon it.
Trim any apple or plum trees that are over-bearing. It pays.
Setting away in a large can is a very poor way to cool cream.
Horses that have a light hay diet are seldom affected with heaves.
All weeds damage the appearance of a farm and render it less valuable.
Strong, vigorous pigs when a week old will care for themselves, barring accidents.
The dairyman cannot afford to keep a cow at the expense of the rest of the herd.
Local manure should be applied only when the ground is moist enough to absorb it.
Aim for early maturity, and keep hogs growing by intelligent feeding and good care.
Runs of confined fowls quickly become foul this warm weather. Plow them up often.
The pig crop is governed by numerous influences that tend to increase or decrease supply.
Even circulation of air is the one important factor necessary for the proper curing of corn.
It is just as necessary for little pigs to have fresh dirt to root in as to have nourishing feed.
Cowsown sown in standing corn at the last cultivation will furnish a large amount of pasturage.
The first tomatoes to ripen that are oval and smooth, and the seed from them should be saved also.
Unless the birds are on grass, supply them with green food daily, therefore cut grass is excellent.
Hens that are frightened every time an attendant goes among them cannot do well in producing eggs.
Humus is the organic matter in the soil, and is formed by the decay of animal and vegetable matter.
All breeds of hogs look good when taken care of, all of them will yield good money if rightly handled.
The man who can raise hogs profitably without pasture can increase his profits many fold by using pasture.
The usefulness of a horse depends largely upon his good health and ability to perform what is required of him.
The majority of silos being built have a continuous door, which makes it very convenient for emptying the silo.
Warm milk should never be poured into cold milk, nor should the night's milk be mixed with the morning's milk.
It is a good sign that the pure-bred sheep are increasing rapidly and are, therefore, improving all of the flocks.
The draft horse should show a vigorous, lively, energetic disposition, yet be docile, tractable, and intelligent.
Raise the type of colt that sells best in your community. Select the sire and dam that will bring this type of colt.
A goose that is being fattened for market should never be permitted to swim in the water or to wander any distance.
Milk should never be exposed to foul air in the cow stable or in dirty tanks before it is delivered to the creamery.
Pet and talk to the cow. Kicking and beating spoils her for milk purposes. If she really needs beating or kicking, butcher her.
The pig is merely a meat-producing machine and the more he is fed with good judgment, of course—the more meat he will turn over.
For the farmer who wants to go into the business of breeding for profit, mules are much better than horses, and a safer proposition.
A check rein is unnecessary cruelty. For the horse that occasions trouble by reaching down after grass or corn, try a muzzle, but leave his head free.
When acorns are fed pigs their flesh is apt to become very soft and oily, and this difficulty may be overcome by feeding corn for three weeks before slaughtering.
Formerly it was thought that the corn should be quite green when used for silage purposes. It is now realized that the best silage is made from corn which is well along toward maturity.
Many kinds of insect vermin besides red mites infest the poultry yards and are not their live exclusively on the little chicks, hiding in the down on their heads and under their throats.
Keep the windfalls in the plum and apple orchards picked up. They often harbor insects. Pigs turned in among the trees will rid the ground of windfalls. If they are fed occasionally, there is little danger of their injuring the trees.
It is a mistake to think that one may cease reading his dairy paper simply because it is "warm" weather and the crop on the farm occupies the time. The farmer has an opportunity to keep up with the lines of thought suggested by the best authorities.

Backache

Is only one of many symptoms which some women endure through weakness or displacement of the womanly organs. Mrs. Lizzie White of Memphis, Tenn., wrote Dr. R. V. Pierce, as follows:

"At times I was hardly able to be on my feet. I believe I had very pale and ached a woman could have. Had a very bad case. Internal organs were very much diseased and my back was very weak. I suffered a great deal with nervous headaches, in fact, I suffered all over. This was my condition when I wrote to you for advice. After taking your 'Favorite Prescription' for about three months can say that my health was never better."

Dr. Pierce's Favorite Prescription

Is a positive cure for weakness and disease of the female system. It cures inflammation, heals ulceration and soothes pain. Do not permit a dishonest dealer to substitute for this medicine which has a record of 40 years of cures. "No, thank you, I want what I ask for."

We now have "publicity before the election"—all that we asked on this subject in the platform of 1908, and even more. But sentiment has grown until we are in a position to ask for still more. We should now have publicity as to expenditures of those organizations that nominate presidents. Why not find out who puts up the money for nominations? And why not find out who recommends appointments? Why should an appointing office not be in the dark? Why not compel the president to open the record for inspection so that the public can know the power behind the throne? Why should the president appoint judges for life, and other officials for a limited term, without disclosing the information upon which his appointments are based. Let us have this publicity—and it should be before presidential nominations are made and before appointments are sent to the Senate. We should also have publicity as to newspaper ownership. We have had enough of assassination methods in subsidized journalism. A little light would be helpful, and it ought to come before the next presidential election. A democratic congress ought to inaugurate (if the reform. And now that the publicity campaign is started it should be kept up until all elections and nominations are made public affairs and secrecy is driven from the administration of the government.—The Communion

Towns Come in Strong for State Aid.

Although county clerks are not required by law to report until October 1st the numerous votes by the various towns and counties for state aid improvements, preliminary reports already in from many of them, information received from this and other sources would indicate that thirty-five months will ask state aid in excess of their appropriation, thirty-two will ask for amounts less than their appropriation, and four counties have taken no action.

Those counties in which the towns have failed to vote any money, or enough money to exhaust the state aid available for the county, still have a chance to get state aid if the county board at a special meeting held on or before October 1st votes a county tax equal to two thirds of the cost of the desired road improvements.

The proceeds of the county tax, together with the state money, may be spent on the county system of prospective state highways at a point selected by the county board or its committee. Money voted by the towns, together with the county and state aid drawn by it, must be spent at points on the system selected by the people of the town or by the town board.

Final apportionment of the state money will be made before November 1st. Blanks on which to report to the State Highway Commission all amounts voted, have been sent to all county clerks.

Trespassing on Land of Another.

There has been considerable discussion relating to the state law in regard to hunting without permission on land of another and there seems to be considerable misunderstanding regarding the exact scope of the law. Section thirty-seven, which covers this matter, reads in full as follows:

"Any person who shall enter into any grove or standing grain not his own, with the arms or permit his dog to enter into any such grain, without the permission of the owner or occupant of the land on which such grain is situated or any person who shall, without permission of the owner, hunt or shoot on the premises of another enclosed by a fence and used as a pasture for stock, or shall hunt or shoot upon any other land of another after being notified not to hunt or shoot thereon, shall be punished by a fine of not less than five dollars nor more than ten dollars and in default of payment thereof, shall be imprisoned in the county jail not less than ten days nor more than thirty days; provided, that this section shall not limit or in any way affect civil liability on account of such trespass. Any owner or occupant of land may give the notice provided for in this section by maintaining sign boards, at least one foot square containing such notice upon at least every forty acres of the premises sought to be protected, in a least two conspicuous places, or by giving, personal, written or verbal notice."

It is provided further that "taxable costs in any action brought by the owner of any wild and uncultivated lands against any person for trespass by hunting or fishing thereon, shall in no case exceed the damages awarded such owner for the actual injury caused by such trespass."

MAIL ORDER HOUSES PAY LAVISH SALARIES

There is practically no limit to the salary that the average mail order concern is willing to pay clever writers of advertisements, catalogues and letters. Men of marked ability along these lines can usually make their own terms. One hundred dollars a week is regarded as only a fair salary for a good mail order writer. Many make \$200 per week and some get even \$500 a week.

These facts were made public at a recent investigation wherein a well known catalog house was made defendant on the charge of fraudulent use of the United States mails. This concern had been telling the public how, by dealing direct with the consumer, they could sell at half price. The "explanation" was, that since they "did not sell through dealers, their selling expense was immensely cut down. Then the question came up as to what their expense was in selling and it developed that they were spending huge amounts not only for paper, stationery, printing and advertising (a single mail order advertisement inserted once in one paper sometimes costs \$5,000), but for experts who are able to write "come on," as they call it, to bring in trade.

The upshot of the investigation is, it shows clearly why a mail order house many miles away may sell goods under the nose of a local dealer. It isn't because mail order houses give better values, but because they hire the cleverest writer-salesmen that money can buy. No local retailer could afford to pay \$10,000 to \$25,000 a year for an advertising man. His business is not big enough. And, yet if he had the services of such an expert and gave the fellow permission to exaggerate all he pleased, no mail order house in the world could take business away from him.

The beautiful pictures and alluring descriptions found in mail order catalogs are no doubt regarded by their instigators as wonderful creations, but it is hard on the man or woman who relies on such misrepresentation and sends money away in the hope of getting bargains.

Not long ago a manufacturer who had been selling his product by mail came to the conclusion that he would change over to the dealer plan of selling and out on the mail order end. This he did. As a mail order concern he had no dealer's price. But, strangely enough, he is now selling the identical same product through dealers at the same price as he sold it by mail.

The manufacturer still makes his profit, yet has been no advance over the original mail order price. How does that happen? Let some \$25,000 a year expert mail order advertisement writer "explain" it.

Things usually open themselves up in this world. What the mail order customer saves in avoiding dealer's profits he more than pays back in the form of huge salaries to clever word painters and artists in the employ of mail order concerns. The judicious man or woman buys his merchandise at home, because it is cheaper in the end and the many troubles, inconveniences, delays and aggravations connected with mail order buying are avoided.

Needless to say, our merchants here deserve our patronage. They extend to us every accommodation they can and stand ready to make good on every sale they make. They pay taxes here and are helping to build up our city and the surrounding territory. Let's keep our money at home where we can buy just as much, do it with less trouble and incidentally help our fellow townsmen.

PITTSVILLE.

(From the Record.)

Carl Kurtz, of Glen Ullin, N. D., was in the city the latter part of last week visiting with friends and relatives. Mr. Kurtz says that while there are places in the Dakotas, and especially South Dakota, where the crops are a total failure, the vicinity of Glen Ullin is in the best of condition and that crops are fine. It is his opinion that the Record is certainly boosting for the Wisconsin Valley, and while this is a good indication there are localities in the Dakotas that have not been benefited by it. Of course we expect Mr. Kurtz to stand up for his North Dakota—if he didn't people would think the less of him for it.

P. W. Kahoe left Monday morning for Charles City, Iowa, called there by the information that his wife was very sick and it is expected a surgical operation will be necessary. Mrs. Kahoe left for Charles City in company with her niece last week for the Iowa town after a siege of illness and friends will trust that her condition will be better soon.

On Wednesday morning there was considerable excitement aroused when the fire bell gave the alarm for a fire. It was found that the summer kitchen of the M. L. Hutches residence was on fire. It was soon extinguished with but little damage.

Mr. and Mrs. Frank Ziegler left Monday for Milwaukee where Mrs. Ziegler will be placed in one of the hospitals there to undergo an operation. Mr. Ziegler will stay there till she is able to return.

A cargo of Wisconsin pure bred corn is on the ocean on the way to German South Africa. The grain, for seeding purposes, was ordered of the Wisconsin Experiment association recently by Minister Kammas of the German Imperial consulate at Chicago and cost the purchaser \$3.50 a bushel. The varieties bought were the three famous pure-breds—No. 7 Silver King, No. 12 Golden Glow, and Oliver's Yellow Dent. In competition with other varieties in the province these three brands of Wisconsin corn stood first.

NEKOOSA

(From the Times)

On Tuesday evening, September 12, three young men from Grand Rapids—Messrs. Frank Natwick, Clarence Jackson and Ryland Boorman—visited our city to explain and interest the young people of Nekoosa in Christian Endeavor work, with their experiences and suggestions, in the Union church. Messrs. Natwick and Jackson also brought their violins, by request, and gave two stirring and delightful selections, accompanied by Miss Jackson. Rev. Fred Staff also summed up the evening in a pointed and practical talk. The Nekoosa young people were much interested and are grateful for this instructive and helpful evening.

Irono, the twenty months old daughter of Mr. and Mrs. John Pelot, met with a very painful and serious accident Sunday that came near causing her the loss of the sight of one of her eyes. She was playing when she fell, striking her face and head on the sharp edges of a tin can. She fell with her forehead and face striking squarely on the sharp tin, the force of the fall cutting a very long and deep gash across her forehead, barely missing both eyes. Dr. Waters of Nekoosa and Dr. Aylward of Port Edwards were called and it required eight stitches to sew up the wound.

A. E. Gardy, formerly in the barber business here and familiarly known as "Long John," now proprietor of a large hotel at the well known summer resort of Green Lake, Wis., accompanied by Mr. and Mrs. J. B. Baird, John R. Brooks and M. Gradiner, all of Green Lake, came down Saturday and stayed until Tuesday, on a hunting and outing trip. They departed with their full quota of game—twenty-five chickens and twenty-five grouse. They were piloted to the hunting field by John Lawrence.

Farmer Hurt by Train.

Marshall Herald.—Frank Yeskey, a farmer residing a half mile east of Vesper, was brought to the hospital in this city Monday night suffering from injuries received in a knock out blow he got that evening at Arpin given him by the Northwestern passenger train that arrives here at 11 p. m. With another companion Yeskey attempted to cross the track just in advance of the incoming passenger. He was struck and thrown some distance and only for the slow speed of the train would have been killed. He is considerably bruised about the chest but will recover. He is a married man.

John Hicke, who has been with Wm. Buchanan the past summer, was in Vesper Sunday looking up a house.

Mr. Searls has sold the "Hotel Monogram" to Mr. McKenzie of Sherry. Mr. McKenzie will take charge of the place the first of the month. Mr. Searls expects to move to Pittsville.

D. McVicar and family returned home Monday from a trip to the state fair.

Mrs. Herbert Jones returned home Saturday from a visit to Kentucky. Her sister Lucille Smith, came with her to make an indefinite stay.

Mrs. Whitehouse was in Chicago last week.

The party given by Oscar Bean and James Moore Saturday evening was well attended and all had a good time.

I Will Come This Moon.

—On Sept. 27th I will again come to Grand Rapids to heal all who suffer. I treat all such ailments as appendicitis, bronchitis, asthma, gall stones, rheumatism, neuralgia, gout, enlarged tonsils, adenoids, catarrhs, stomach, liver and bowel troubles, sick headache, heart trouble, tuberculosis, all forms of female weakness, and all other ailments of the body, and will give one hundred dollars for any case of appendicitis or gall stones which I cannot cure by the laying on of my hands.

Phillip Yackel.

BURDENS LIFTED.

From Grand Rapids Backs Grand Rapids Relief.

—Backache is a heavy burden; Nervousness wears one out; Rheumatic pain; urinary ills; All are kidney burdens; Daily effects of kidney weakness. No use to cure the symptoms. Relief is but temporary if the cause remains. Cure the kidneys and you cure the cause. Relief comes quickly—comes to stay. Doan's Kidney Pills are for kidney ills. Prove their worth by your neighbor's case. Here's Grand Rapids testimony. The story of a permanent cure. Mrs. Samuel Parker, 307 Eleventh St., N. W., Grand Rapids, Wis., says: "Doan's Kidney Pills have been used in my family with excellent results. In 1907 I publicly recommended this remedy and now I take pleasure in doing so again. The benefit it brought has been permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York; sole agents for the United States. Remember the name—Doan's—and take no other.

Half a Million Acres.

In connection with the opening of the Pine Ridge and Rosebud Indian Reservations, South Dakota, Oct. 21, inclusive, the Chicago & North Western Railway is making extensive preparations to transport passengers to and from the registration points. The land subject to entry is located in Bennett and Mellette Counties, S. D., and will approximate 460,503 acres.

Applicants for these homesteads must register for this purpose some time between Oct. 2 and Oct. 21. Gregory, Dallas and Rapid City, S. D., have been designated as registration points. The drawing will take place at Gregory, beginning at 10 a. m., Oct. 24.

Winner, S. D., the present terminus of the Chicago & North Western Railway's extension to the Rosebud Reservation, is located practically on the border of the reservation, and 21 miles west of Dallas and 26 miles west of Gregory. Those registering at Gregory or Dallas may make the trip to Winner at slight additional expense, and thus make a personal inspection of the lands which are to be opened for settlement. Local team and automobile service will be furnished by local parties from Winner, S. D., to all points on the reservation.

The registration and drawing for these lands will be on the same general plan as was made use of on former similar occasions.

The lands have been classified and appraised by the Government and a price of from 25 cents to \$5 per acre has been established, payment whereof is divided into annual installments covering a period of five years.

The land is of the same general character as adjoining lands now on the market at \$35 to \$55 per acre. Practically all the cereals will grow and successfully ripen throughout this territory, the grains including barley, oats, rye, speltz, flax and corn. The buffalo and grama grasses, famous for their value to stock raisers, grow here abundantly, and alfalfa, one of the best known feeders for live stock, horses, etc., can be successfully grown. The water supply, climate and general conditions are all favorable to the live stock industry. The climate is salubrious and healthful. The summers are warm and the nights cool and refreshing. The autumns are noted for their bright, warm days, which last from October to December. During the winter the snowfall is light. The entire region is well watered by several large rivers and their tributaries, and Government reports show a generous rainfall and favorable temperatures for the growing season.

The location is a highly desirable one, being within easy reach of the great markets of the West, including Omaha, Council Bluffs, Sioux City, Chicago, St. Paul and Minneapolis. The line of the Chicago & North Western has been constructed westward through the Rosebud lands that have been opened to the public use in the past and provides a direct route to all principal points.

Approximately half a million acres of this land are to be opened to the public, making this one of the largest Government openings in recent years, and it will be one of the last large tracts available.

ARPIN

Mr. and Mrs. Henry Roehrig, Mrs. R. Robinson and Miss Emily Saville of Pittsville motored to Appleton Saturday in the former's auto and visited over Sunday with relatives returning home Monday.

Byron Whittingham and son Will returned home the 10th after a two weeks' sojourn in North Dakota and Troid, Mont. They report a very enjoyable trip.

Dr. Theobald of Cary, Ill., formerly of this place, has been calling on friends here recently.

Friends were sorry to learn of the death of John Smith, a prosperous farmer who resides east of town. Mr. Smith has been in poor health for several months and has been a long and patient sufferer. The funeral is expected to take place Wednesday morning at the new Catholic church at Vesper. The body will be interred in the new burying grounds. Mr. Smith has always been a kind friend and good neighbor and will be greatly missed by those who have known him so well. He leaves, to mourn his loss, his wife and seven children, Mrs. John Byrners, Tom, Jack, Anna, Lizzie, Florence and Frank, all of whom reside at home except Mrs. Byrners who lives a little distance from home. The family have the sympathy of the whole community in their bereavement.

Mr. and Mrs. Blinn entertained at dinner Sunday the former's parents, Mr. and Mrs. Wm. Blinn of Lewis and family, Mr. and Mrs. Walter Weinbrener of Auburn, Me., and Miss Mary LeVigne of Grand Rapids.

Mr. and Mrs. Gus Mander are enjoying a visit with their daughter, Mrs. M. Crawford of Salt Lake City, Utah.

PUBLIC STILL LIKES TO BE HUMBUGGED.

People nowadays are no different than they were 25 years ago when P. T. Barnum, the world famous circus owner, said: "The Public Likes to be Humbugged." One of the favorite methods nowadays for people to get humbugged is to try to drive a bargain with some distant mail order concern. In their eagerness to get something for nothing (goods at half price), they make themselves too much as much trouble and considerably more expense than if they had done business with their local dealers. They seem to forget that these mail order houses are out to get the money and all they can.

If one of our local dealers would make the extravagant statements that the average mail order house does, he would immediately be set down as an outrageous exaggerator. People would not trade with him, because they would know they could never rely upon the accuracy of his statements. A mail order house will advertise a stove on "90 days' free trial," but when you ask to try the stove they ask you to send them the money first. Is that a free trial? Let some of our readers who have ordered goods on a "free trial" basis and tried to return them tell you how "free" it is. It would take a Philadelphia lawyer to make the average mail order concern return the money on such a deal.

Another will claim made by mail order houses is that they sell goods at half the retail dealer's price. The idea is simply ridiculous and anybody who stops to think will see it. Suppose they could sell articles of equal quality at one half the dealer's price. They wouldn't do it, for the very good reason that they wouldn't need to. A one-fourth reduction would be sufficient to get the business (if their goods were of good quality), and they could pocket the other fourth. Talk about legitimate profits! The average mail order article brings the seller an enormous profit. These concerns have grown rich, just because there are, and probably always will be, a certain class of people who hope to get something for nothing.

Fortunately, a big movement is on foot which is fast putting a stop to the rank misrepresentations of mail order concerns.

Leading manufacturers, such as the makers of "Garland" Stoves and Ranges, have undertaken to tell the public plainly the disadvantages of mail order buying, which, of course, mail order concerns would gladly keep to themselves.

J. E. Daly received the new opera chairs for his theater the fore part of the week and has had a gang of workmen busy placing them in position so that everything will be ready this week. The placing of the new chairs will increase the seating facilities of the building very materially by giving a large number of additional gallery seats.

Dr. V. P. Norton spent Sunday in this city with his family, having been absent the past week on the discharge of his duties as assistant state veterinarian. Dr. Norton states that the report that has been circulated to the effect that he will not practice his profession any more is utterly false, as he will be here a part of the time, besides which he has formed a partnership with two graduate veterinarians who will be here in the near future to look after the business. The doctor left again on Monday to look after his work for the state.

Too Big for the Army.

A man by the name of Wren appeared before the recruiting officer of the army in Louisville, Ky., on September 8 and was turned down on account of the fact that his height, 6 feet 9 inches, made it impossible to accommodate him. He was physically perfect, weighing about 220 pounds, and the recruiting officer sought the special permission of the War department to enroll him. This, however, was refused, and the giant must give up his idea of becoming a soldier. It has been suggested that he would make a good drum major at the head of the band, but on account of the length of his legs there was question whether he could time his steps with the music intended for the usual sized soldier. The man was born in Kentucky and is 28 years old.

How is Your Title?

You and many another property holders in Wood County are resting under the impression that because you hold a warranty Deed to your premises that you are secure in the possession of the same. Such, however, may prove not to be the case and to your sorrow and great financial loss some party with a better legal claim may dispossess you of your home or other real estate holdings, representing possibly the savings of a life time.

This may be the result of the careless drawing of deeds and mortgages or errors in copying the same, or because the party from whom you bought did not have a good title as he represented to have.

Learn how your title is by getting an Abstract of the Title which will show the complete history of the title from the Government ownership to the present date. If any errors exist they will be shown upon the Abstract and you can take steps to have the same perfected before someone comes in and disputes your title.

Now also is the time to find out if errors exist so that deeds may possibly be obtained while possible claimants are still alive and without having to deal with heirs which is always expensive.

It costs money to talk to you this way. There is much more to be said to your benefit. Come in and talk it over.

Mr. and Mrs. F. W. Caulkins spent Thursday at Stevens Point where they attended the fair and visited with relatives.

Dr. D. A. Teller and daughter, Miss Gonerieve departed on Tuesday for a visit in Milwaukee and Chicago for several days.

Don C. Meyers, cashier at the Soo depot, has rented the Geo. N. Wood bungalow near the car barn, moving in the first of the week.

Paul Swain, who departed several weeks ago for the west, has accepted a position as teacher in the public schools at Julian, California.

Reports from F. J. Wood are to the effect that he is steadily improving and it is not expected that it will be very long before it is possible to bring him home.

The first meeting of the Women's Club for the year was held on Monday evening at the home of Mrs. J. D. Witter. The members are finishing up their study of Dickens this year.

Bert Kinister, who enlisted in the U. S. Navy several years ago, is spending a short furlough in the city, visiting with his parents, Mr. and Mrs. George Kinister.

Arthur Podawiltz, who is employed by an automobile company at Eau Claire, spent Tuesday in the city visiting with his parents and looking after some business matters.

Miss Emma Swain arrived home on Saturday from Lac du Flambeau where she has been employed the past summer as lady's maid by a wealthy Chicago family. After several weeks visit with her parents, Miss Swain expects to return to Chicago to resume her position.

Patrick Mulroy, the genial proprietor of the Commercial Hotel, returned on Saturday from a week's visit at Shawano and Hortonville.

He attended the county fair at Shawano and reports that the exhibits of farm produce were the best this year they have had for many years.

The Stevens Point Fair was spoiled to a certain extent this year by the prevalence of rain. There was said, however, to be a good attendance on Friday, when some good races were pulled off. Many of the fairs about the state were knocked out to a considerable extent by the rains.

The Schubert Symphony Club and Ladies Quartet, which gave a musical entertainment at Daly's Theater on Wednesday evening under the auspices of the Federated Clubs, was listened to by a fair sized audience, altho it was not as largely attended as it should have been considering the merits of the organization. The entertainment was thoroughly appreciated by those in attendance.

Marshfield Herald:—Otto J. Leu, at present successfully engaged in dairy farming in the southern part of the county, was a caller at the Herald office on Saturday of last week. Mr. Leu was on his way home from Thorp where he made an address before a Holstein breeders meeting, himself owning a fine herd of these cattle. In addition to the breeders meeting the farmers in that vicinity, on the same day made the occasion a sort of a fair, many of them bringing in samples of grain, corn, potatoes and apples raised on their respective places which Mr. Leu pronounced the best he ever saw. He was particularly surprised at a squash brought in by one of the farmers. It measured 30 inches in length and 48 inches in circumference.

AFTER 7 YEARS SUFFERING

I Was Cured by Lydia E. Pinkham's Vegetable Compound

Waukegan, Ill.—"I had female troubles for seven years, my health was so low I could not do anything. The doctors treated me for different things but did me no good. I got so bad that I could not sleep day or night. While in the hospital I read of Lydia E. Pinkham's Vegetable Compound, and began its use and within a short time I had gained my normal weight and am now strong and well."

—Mrs. B. L. STEVENS, R. F. D. No. 3, Box 11, Waukegan, Ill.

Another Grateful Woman.

Huntington, Mass.—"I was nervous, run down condition and for three years could find no help. I owe my present good health to Lydia E. Pinkham's Vegetable Compound and Blood Purifier which I have used."

"My doctor knows what helped me and does not say one word against it." —Mrs. MATT J. BATES, Box 334, Huntington, Mass.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ill health, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pain, backache, flat bearing-down feeling, and nervous prostration.

WHEN THE LUCK CHANGED

Groceryman at Last Could Believe That Things Might Be Coming His Way.

George H. Karto, the Philadelphia grocer, was talking in Washington about his high over the top of his head.

"There is a certain type of character," said Mr. Karto, "who, in his greed for wealth, loses his humanity. He becomes, in fact, a far smaller of Peter Brown."

Peter Brown was a Philadelphia grocer. He was delivering some groceries in his wagon one morning when he ran down and badly injured an elderly man. A few minutes later he was on his hands and knees, when he ran down and crippled an old man. The man also died, and so large were the damages awarded him by a generous jury that poor Brown found himself actually on the verge of ruin.

"One morning about this time," Karto's story rushed into the shop in great excitement. "Peter Brown, 'Fathead' Karto's been run over by old Colonel Gold's horse power touring car."

"The grocer's eyes filled with tears, and in a voice tremulous with feeling he exclaimed: 'Thank heaven, the luck's changed at last!'"

Social Distinction

In some parts of the south the dukes are still addicted to the old style country dance in a big hall with the pillars, bandstands and other novelties on the platform at one end.

At one such dance held not long ago in an Alabama town, when the fiddlers had just finished their bows and taken their places on the platform the floor manager rose.

"Go 'y' partners to the next dance!" he yelled. "All you ladies and gentlemen, dat year shoes are no stockings, take 'y' place immediately behind de man. 'y' barefooted crowd, you jes' fit it out in de corner." Universal Magazine.

A Reply Was Received.

"They have given a very funny one. Alaskan matter in the interior department since the trouble of the 'Cunningham claims,' said a real man the other day.

"I had occasion some time ago to write to the department about an Alaskan subject that had no bearing on the situation. I have just received an answer that would not count any body, but it had on it the initials of at least six persons, showing that the reply had been thoroughly considered and revised before it was started in my direction. I guess they are on the lookout for bombs."

A LADY LECTURER

Feeds Nerves and Brains Scientifically.

A lady lecturer writes from Philadelphia concerning the use of right food and how she is enabled to withstand the strain and wear and tear of her arduous occupation. She says:

"Through improper food, imperfectly digested, my health was completely wrecked, and I attribute my recovery entirely to the regular use of Grape-Nuts food. It has, I assure you, proven an irreplaceable boon to me."

"Almost immediately after beginning the use of Grape-Nuts I found a gratifying change in my condition. The terrible weakness that formerly prostrated me after a few hours of work, was perceptibly lessened and is now only a memory—it never returns."

"Ten days after beginning on Grape-Nuts I experienced a wonderful increase in mental vigor and physical energy, and continued use has entirely freed me from the miserable insomnia and nervousness from which I used to suffer so much."

"I find Grape-Nuts very palatable and would not be without the crisp, delicious food for even a day on any consideration. Indeed, I always carry it with me on my lecture tours."

Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

ADVENTURES of the WORLD'S GREAT DETECTIVES

The Theft of the Potter Jewels.

An Episode in the Life of William A. Pinkerton the Famous Thief-Taker.

COPYRIGHT 1911 BY W. G. CHAPMAN

THE summer of 1904 the daughter in law of Mrs. Bishop Potter arrived in Cooperstown, New York, for the purpose of spending a holiday with her father-in-law.

She was a young woman of about twenty, and was the only child of a wealthy family. She was very beautiful and was very popular with the young men of the town.

"The jewels," he stammered. "The jewels have been stolen!"

The amazing statement proved to be a fact. The Clark estate building, in many respects, resembled a bank. The imposing front, the iron bars, the long counters and the grating iron and steel safes and vaults all contributed to the illusion. It seems that while most of the clerks were away at the holiday hour, a man, wearing a short coat, ink smudged, and bearing all the appearance of one of the attendants of the institution, had entered the office, opened the safe and taken out the jewels.

The Theft of the Potter Jewels.

An Episode in the Life of William A. Pinkerton the Famous Thief-Taker.

COPYRIGHT 1911 BY W. G. CHAPMAN

One of Coleman's friends said, tonight, to Pinkerton:

"That was quickly ended."

"We've just begun," was the grim reply.

And so it seemed. Mr. Coleman was slow-witted day and night. In a short while the agency knew just what he ate for his breakfast, dinner and supper; they knew where he slept, and had a line on his amusements and his relaxations. Billy was too bright not to know that he was being followed, but he seemed to enjoy the chase and at intervals took keen pleasure in throwing the police off the track. Summer passed into autumn and that, in turn, into winter, and then the suggested one began to feel that he was safe. But he was being pursued by men whose boast was that they never slept.

The climax came just about the time of the first fall of snow in the winter of 1901. One morning he went to the Grand Central depot and purchased a ticket for a station in New York state. Two Pinkerton men were suddenly seized with a desire to go the same place. Mr. Pinkerton, hearing of this, followed on a later train, saying significantly:

"The sleighing may be good up that way."

On the following morning Coleman arose quite early, and taking a spade

The local authorities were notified, and they made a thorough investigation which proved to their satisfaction that no one connected with the Clark estate building was implicated. An examination of the premises indicated that the robbery was committed by a professional bank thief. That meant that he had covered his tracks skillfully and might never be apprehended. Such men are the aristocrats of the criminal world and defy the methods usually applied to ordinary offenders.

Fortunately, some persons in the vicinity of the Clark estate building had noticed a man following in the neighborhood on the day of the robbery, and were able to give a description of him. Also it was found that the tin box discovered in the cellar was covered with blood. The theory was that the thief had cut his hands with the instrument used in opening the box. The blood on the box, therefore, was the only clue that the authorities had to work upon. It is not surprising that several days went by without results of any kind.

At this stage of the proceedings the case was entrusted to the Pinkerton men. Mr. William A. Pinkerton became interested at once in the case, and the achievement of the really great crooks by heart. Above all, he knew the methods of the big thieves, for there is technique in bank breaking as well as in the other big professions of life. For instance, he knew one man who always committed his robberies in well-known towns on Christmas days, another made a specialty of "sapping the vaults," that is to say, with the great cylinder of a bank is engaged in counting a roll of money, the thief taps him on the shoulder and calls his attention to the fact that he has dropped a bill on the floor (generally placed there by the teller). As the man stoops down to pick up the note, the thief grabs the big roll and makes away with it. Still another method was to have a confederate call up the teller of a bank on the telephone, and while he was engaged in conversation, the sneak thief was waiting, on his own premises in another part of the bank, these ruses are attempted only in small country towns.

After Mr. Pinkerton had obtained all of the details concerning the Cooperstown robbery, he mentally compared the circumstances with the case of the great cylinder of a bank he had known. Finally he looked up with the light of discovery in his eyes. He spoke to one of his assistants:

"There's only one man in America who could have had the nerve and ingenuity to do that job."

"Who's that?"

"Billy Coleman."

"What about us?"

"Find him and arrest him."

"That was not a difficult matter, for 'Billy,' to his misfortune, was 'known to the police.' The fact that he was wanted was telegraphed to the authorities of every large city in the United States. Two weeks after the robbery Mr. Coleman was arrested for the Pinkerton men by the police of New York City. He took the proceedings quite as a matter of course, and yet with an air of injured innocence. He talked with the description that had been given to the Pinkerton men by the witnesses from Cooperstown, but there was no positive evidence to prove that he was the robber. The case went before the grand jury. In this country a man may be arrested on suspicion, though he is rarely convicted on conjecture. In the early stages of the case great stress had been laid on the bloody tin box. A careful examination of Coleman, however, showed no cuts or bruises of any kind, on any part of his person, from which blood could have freely flown. The grand jury refused to indict him for the crime and he was released.

With him, went toward a house near the center of the town. He walked to the side of the building and, clearing away the snow from a portion of the ground, prepared to dig. Pinkerton appeared at this awkward moment.

"A little early in the morning for physical culture," he remarked, dryly.

"Yes," grinned Billy, throwing down his spade. "I guess you're right about that."

He was taken into custody by the Pinkerton men and the local police. After he had been placed under lock and key, the officers proceeded to dig. Pinkerton appeared at this awkward moment.

The Pinkerton police, it will be remembered, engaged a series of examinations which make the work of the redoubtable Sherlock Holmes look clumsy and amateurish in comparison.

They investigated first the furniture of each room. They opened every possible drawer, saying, by way of parenthesis, that to a properly-trained police agent such a thing as a secret drawer was impossible. After the cabinets they took the chairs. The cushions they probed with fine, long needles. From the tables they removed the tops. They examined the rungs of every chair in the house, and indeed the joinings of every description of furniture by the aid of a most powerful microscope. They looked for any traces of recent disturbances. "A single grain of gunshot," the prefect said, "would have been as obvious as an apple."

But in this famous piece of fictional detective work the police went still further. They looked to the mirrors, between the boards and the plates, they probed the beds and the bed clothes as well as the curtains and the carpets. Even this was not considered sufficient. They looked among the books and the papers of the suspected man. They opened every package and parcel; they not only opened every book, but they turned over every leaf in every volume. They also measured the thickness of every book cover with the most accurate measurement. Some five or six volumes, fresh from the binder, they probed longitudinally with the needles. They explored the floors beneath the carpet and the paper on the walls. The examination included the ground about the house. The moss between the bricks was scrutinized and found undisturbed. In fact, they divided the house and the two houses immediately adjoining, and scrutinized each individual square inch with the aid of a microscope. Not until all this was done—and it occupied
